Risk Factors

Investing in the First Janata Bank Mutual Fund (hereinafter the Fund) involves certain considerations in addition to the risks normally associated with making investments in securities. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund may go down as well as up and there can be no assurance that on redemption, or otherwise, investors will receive the amount originally invested. Accordingly, the Fund is only suitable for investment by investors who understand the risks involved and who are willing and able to withstand the loss of their investments. In particular, prospective investors should consider the following risks:

- In General:** There is no assurance that the Fund will meet its investment objective; investors could lose money by investing in the Fund. As with all mutual funds, an investment in the Fund is not insured or guaranteed by the Government of Bangladesh or any other government agency.
- Market Price Risk:** Stock prices and Mutual Fund prices generally fluctuate because of the interplay of the various market forces that may affect a single issuer, industry or the market as a whole. The Fund may lose its value or experience a substantial loss on its investments due to such market volatility.
- NAV Risk:** Stock market trends show that prices of many listed securities move in unpredictable directions, which may affect the value of the Fund's portfolio of listed securities. Depending on its exposure to such securities, the net asset value of units issued under this Fund can go up or down depending on various factors and forces affecting the capital markets. Moreover, there is no guarantee that the market price of the Fund's units will fully reflect the underlying asset value of the Fund.
- Issuer Risk:** In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance, management decision to take on financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.
- Asset Allocation Risk:** Due to a very thin secondary debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. In addition, limited availability of money market instruments in the market implies that there are only few opportunities for short term or temporary investments for the Fund.
- Lack of Diversification Risk:** Due to small number of listed securities in both the Stock Exchanges, it may be difficult to invest the Fund's assets in a widely diversified portfolio.
- Liquidation Risk:** Market conditions and investment allocation may impact on the ability to sell securities during periods of market volatility. The Fund may not be able to sell securities or instruments at the appropriate price and/or time.
- Dividend Risk:** If the companies wherein the Fund will be invested fail to pay expected dividend, it may affect the overall returns of the Fund.
- Investment Strategy Risk:** The Fund is subject to management strategy risk because it is an actively managed investment portfolio. The AMC will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these techniques and analyses will produce the desired results.
- Socio-Political & Natural Disaster Risk:** Uncertainties resulting from political and social instability may affect the value of the Fund's Assets. In addition, adverse natural climatic conditions may hamper the performance of the Fund.

2. BACKGROUND

2.1. FORMATION OF FIRST JANATA BANK MUTUAL FUND:

Over the last decade, the Bangladesh capital market has grown rapidly in size and volume through the efforts of regulators, local exchanges, brokerages, merchant banks and other institutions. Yet the nature and composition of this growth has given rise to some structural problems, such as excessive volatility, speculation based investing, and unusual churn. One of the most effective solutions to these structural issues is by increasing increased participation of mutual funds in our capital markets ... firstly, mutual funds by virtue of being managed by professionals with the right expertise usually invest on the basis of fundamental research and protect such investments from catastrophic loss through proper risk-management. Thus, mutual funds “invest” rather than “speculate” and can play a vital role in institutionalizing the market and act as a counterweight to excessive market volatility and manipulation. Secondly, mutual funds pool investment capital from thousands of retail investors and institutions that are not market specialists; by doing so mutual funds can bring retail investors’ funds under an institutional umbrella and thereby protecting these small investors from excessive volatility and speculation.

Realizing the vital role that mutual funds can play in improving the capital market efficiency, Janata Bank Limited, has come forward and decided to sponsor **First Janata Bank Mutual Fund**. Having successfully launched merchant banking operations in March 2009, Janata Bank has built significant exposure to our stock market. The Bank strongly believes that the Bangladeshi stock market is entering a new growth phase, with healthy dynamics in both the demand and supply sides, and that mutual fund sponsorship offers the bank a responsible and profitable way of participating in this growth; the First Janata Bank Mutual Fund is the result.

In this endeavor, First Janata Bank Mutual Fund has chosen two trusted partners with successful track record in the Bangladeshi mutual fund industry: RACE Management PCL as the Fund Manager and the Investment Corporation of Bangladesh (ICB) as the Trustee and Custodian of the Fund.

2.2. FORMATION OF THE PROPOSED MUTUAL FUND IN THE CONTEXT OF PRESENT MARKET SCENARIO:

Since 2006, a number of factors have increased the popularity of stock market investing among Bangladeshi retail investors, including: rising income, low interest rates in traditional bank savings accounts, large stock investment gains, and increased media coverage. This exponential increase in demand is reflected in the 9x growth in average daily trading volume in the stock market during the last 2 years from Tk. 200 crores in 2006-07 to its current Tk. 1900 crores.

Despite this significant growth in investor participation in the Bangladeshi stock market, and the demand for professionally managed investment vehicles, the domestic mutual fund industry has not responded with adequate supply. With only 26 individual funds to choose and about Tk. 2,500 crores in funds under management, the mutual fund industry has been slow to respond to current capital market realities and comprises only a small percentage of the total stock market investments. As a result, existing mutual funds in the market are trading at significant premium to their NAVs while the recent launches have been significantly oversubscribed. To fulfill this large unsatisfied demand for mutual fund investments in Bangladesh, Janata Bank is floating the **First Janata Bank Mutual Fund**. In this endeavor, Janata Bank has appointed RACE Management PCL to be the Fund Manager; RACE Management has a successful track record in the Bangladesh stock market having achieved the largest private Asset Management Company in terms of funds under management in Bangladesh landmark within a little more than year.

2.3. ADVANTAGES IN INVESTING IN FIRST JANATA BANK MUTUAL FUND:

Generally investment in mutual funds enjoys some additional advantages compared to investments made directly in other securities of the capital market. Investors of this mutual fund should be able to enjoy the following advantages.

- 1) The Fund will maintain a diversified portfolio which will lower the investment risk for investors.
- 2) The diversified portfolio will allow investors gain a broad exposure to the overall stock market which may not be possible at the individual level.
- 3) This Fund provides access to extensive local research and investment experience. The Fund Manager, RACE Management PCL has developed deep insight into the dynamics of the local capital markets. RACE’s research department consistently produces insightful research products on the Bangladeshi stock market which have been highly commended by both local stock market participants and foreign investors.
- 4) As the management of the investments in the Fund is outsourced to a professional Asset Management Company, investors will be relieved from any emotional stress associated with day-to-day management of individual investment portfolio. In fact, investment management usually requires a significant amount of time-consuming research and analyses to identify the highest-quality securities which may not be doable for the general investor and is, therefore, best left to professional investment managers.
- 5) The investors will be able to save in transaction cost as he/she has access to a larger number of securities by purchasing a single unit of First Janata Bank Mutual Fund.
- 6) Income will be tax free up to certain level, which is permitted as per Finance Act.
- 7) Investment in the Fund would qualify for investment tax credit under section 44(2) of the Income Tax Ordinance 1984.
- 8) Management and operation of Mutual Funds are subject to strict regulations from Bangladesh Bank, SEC and the Trustee. SEC regularly monitors the performance of such funds. The laws governing mutual funds require exhaustive disclosures to the regulator and general public and, as such mutual funds are one of the most transparent investment vehicles in Bangladesh.
- 9) In Bangladesh, the mutual funds enjoy a 10% (ten percent) reserved quota in all Initial Public Offerings (IPOs). Given the lack of supply of high-quality scrips in the Bangladeshi stock market, IPOs have historically outperformed the general Bangladeshi market index significantly and, therefore, have been a major source of outperformance for the mutual fund industry in Bangladesh.

2.4. THE CONSTITUTION OF THE FUND:

4. RISK CONSIDERATIONS

4.1. RISK FACTORS:

Investing in the First Janata Bank Mutual Fund (hereinafter the Fund) involves certain considerations in addition to the risks normally associated with making investments in securities. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund may go down as well as up and there can be no assurance that on redemption, or otherwise, investors will receive the amount originally invested. Accordingly, the Fund is only suitable for investment by investors who understand the risks involved and who are willing and able to withstand the loss of their investments. In particular, prospective investors should consider the following risks:

1. **In General:** There is no assurance that the Fund will meet its investment objective; investors could lose money by investing in the Fund. As with all mutual funds, an investment in the Fund is not insured or guaranteed by the Government of Bangladesh or any other government agency.
2. **Market Price Risk:** Stock prices and Mutual Fund prices generally fluctuate because of the interplay of the various market forces that may affect a single issuer, industry or the market as a whole. The Fund may lose its value or experience a substantial loss on its investments due to such market volatility.
3. **NAV Risk:** Stock market trends show that prices of many listed securities move in unpredictable directions, which may affect the value of the Fund's portfolio of listed securities. Depending on its exposure to such securities, the net asset value of units issued under this Fund can go up or down depending on various factors and forces affecting the capital markets. Moreover, there is no guarantee that the market price of the Fund's units will fully reflect the underlying asset value of the Fund.
4. **Issuer Risk:** In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance, management decision to take on financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.
5. **Asset Allocation Risk:** Due to a very thin secondary debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. In addition, limited availability of money market instruments in the market implies that there are only few opportunities for short term or temporary investments for the Fund.
6. **Lack of Diversification Risk:** Due to small number of listed securities in both the Stock Exchanges, it may be difficult to invest the Fund's assets in a widely diversified portfolio.
7. **Liquidation Risk:** Market conditions and investment allocation may impact on the ability to sell securities during periods of market volatility. The Fund may not be able to sell securities or instruments at the appropriate price and/or time.
8. **Dividend Risk:** If the companies wherein the Fund will be invested fail to pay expected dividend, it may affect the overall returns of the Fund.
9. **Investment Strategy Risk:** The Fund is subject to management strategy risk because it is an actively managed investment portfolio. The AMC will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these techniques and analyses will produce the desired results.

10. **Socio-Political & Natural Disaster Risk:** Uncertainties resulting from political and social instability may affect the value of the Fund's Assets. In addition, adverse natural climatic conditions may hamper the performance of the Fund.

4.2. EXPECTED MARKET PERFORMANCE OF THE FUND:

- 1) It is expected that demand for the First Janata Bank Mutual Fund units will always rule over supply.
- 2) Brand name of First Janata Bank Limited and Trustee, ICB's track record in the successful marketing of several mutual funds in the past may motivate investors to invest in this Fund.
- 3) World class investment management team of the RACE Management PCL as a new-generation Asset Management Company (AMC) would attract investors to invest in this Fund.

4.3. WHO SHOULD INVEST AND HOW MUCH TO INVEST:

- 1) Individuals who do not have tolerance of bearing risk and know nothing about the functioning of the capital market need not apply for the units of the Fund.
- 2) Individuals who are looking for long-term capital growth and consistent dividend payment and are comfortable with the risks associated with equity investments should consider investing in the Fund.
- 3) An individual should also consider investing in the Fund if he/she can accept some variability of returns, have a moderate tolerance for risk and are planning to invest in the Fund over the medium to long-term.
- 4) Considering other factors like the investment opportunities available in the market, return expectation, income level and consumption pattern, one may put only a portion of his/her total portfolio into the Fund.

5. FORMATION, MANAGEMENT AND ADMINISTRATION

5.1. SPONSOR OF THE FUND:

Janata Bank Limited (JBL) is the second largest commercial bank in Bangladesh with 851 branches and an asset base of Tk. 282 billion. The Bank is fully owned by Government of Bangladesh. The mission of the bank is to actively participate in the socio-economic development of the nation by operating a commercially sound banking organization. The Bank received operational autonomy in 2007 after it became a public limited company under a World Bank financed program. Realizing the potential of our capital market, Janata Bank Limited expanded into stock markets in 2009 through launching its own merchant banking operations.

Given the scarcity of mutual funds in the Bangladesh stock market, Janata Bank Limited has decided to sponsor the **First Janata Bank Mutual Fund**. The Bank also realizes that mutual fund is the need of the hour to make our stock market more vibrant and efficient – furthermore First Janata Bank Mutual Fund will expand the bank’s product offerings to clients. In order to efficiently launch First Janata Bank Mutual Fund, the Bank has appointed RACE Management, a second-generation asset management company that has already made its mark in the local market by becoming the largest private Asset Management Company in Bangladesh in a little more than year.

5.2. TRUSTEE & CUSTODIAN OF THE FUND:

In order to ensure maximum trust and confidence of the investors, supervisory bodies and potential investors in the fund, the Investment Corporation of Bangladesh (ICB) will act as the Trustee and Custodian of the Fund.

The Investment Corporation of Bangladesh (ICB) was established on 01 October 1976, under “The Investment Corporation of Bangladesh” Ordinance, 1976 (No. XL of 1976) to encourage and broaden the base of investment, develop the capital market, mobilize savings, promote and establish subsidiaries for business development and provide for matters ancillary thereto. Over the years, the activities of ICB have grown manifold, particularly in Merchant Banking, Mutual Funds operations and stock brokerage activities. ICB is the biggest investment bank and the harbinger of the mutual fund industry in the country. Out of country’s 26 (twenty six) closed-end mutual funds, ICB and its subsidiary manage 19 (nineteen) mutual funds.

As of May 2009, ICB has acted as Trustee to the 11 debenture issuances involving Tk. 155.95 crore, issues of 9 (nine) bond issuances involving Tk. 1,000 crore. ICB also performed the responsibilities of trustee and custodian to 23 (twenty three) closed-end mutual funds of Tk. 1560 crore and 2 (two) open-end mutual funds with initial capital of Tk. 40 crore.

5.3. ASSET MANAGER OF THE FUND:

RACE Management PCL (hereinafter RACE) will act as the Asset Manager of the Fund. RACE is one of the second generation asset management company and received its Asset Management license in September 2008 after fulfilling rigorous due diligence requirements of the SEC. RACE Management has already established a successful track record by launching the first-ever commercial bank sponsored mutual fund, EBL First Mutual Fund and is the only second generation asset management company to have a mutual fund under management in Bangladesh.

The RACE Team: With about 40 professionals and more than Tk. 540 crores of funds under management, RACE is now the largest private Asset Management Company in Bangladesh. The RACE team includes (1) Senior Bangladeshi investment professionals with world-class training and over a decade of experience in investment management and research in some of the worlds’ most

developed capital markets; (2) Senior Bangladeshi professionals from the local banking and financial services industry with strong operational experience and an extensive contact base among the local business community; (3) a cadre of young professionals who have gained unique insights into the local capital markets through the application of sophisticated investment techniques and on-the-ground research.

The investment management operation of RACE is managed by a team of investment professionals and is guided by an Investment Committee. The Investment Committee reviews the Fund portfolio selection process to ensure compliance with the objectives set out in the Trust Deed. In addition, the RACE Investment Committee pays special regard to the SEC guidelines regarding restriction on investments/investment limits as prescribed from time to time; these restrictions relate to single company/group investments, investments in associate companies, investments in unrated debt instruments etc. In addition, the RACE Investment Committee also reviews the portfolio periodically to assess liquidity positions and evaluate the risk parameters and will, from time to time, rebalance the portfolio.

RACE Approach to Fund Management: Highly Process-Driven Investment Approach

A flexible yet disciplined investment process is the hallmark of a professional investment management fund. Incorporating the intellectual capital and collective experience of the RACE’s senior investment professionals, RACE has developed a 7-step investment process:

Step 1: Universe Selection. The first step of the investment process begins with identifying the universe of stocks. These stocks are then classified in four categories based on RACE’s proprietary selection methodology.

Step 2: Focus List. The universe of stock is then narrowed down to build a prospective focus list. This step is usually done in phases. The first phase involves narrowing down the list through RACE’s proprietary filtering process. The second phase involves narrowing the list further through the fundamental research inputs.

Step 3: ‘Top Down’ Analysis involves analysis of macroeconomic trends, analysis on broad market indices, analysis of fund flow trend to formulate sector biases and sector allocations.

Step 4: ‘Bottom Up’ Company Analysis. This step involves a combination of individual security analysis based on multiple parameters, including valuation, qualitative analysis to identify business trends, competitive outlook and corporate management. These analyses are supplemented by company visits and information exchange with management.

Step 5: Portfolio Construction. The next step is to create an optimum portfolio with the goal of maximizing returns and minimizing risk.

Step 6: Risk Management. This step applies the pre-determined position limits to the portfolio, limiting sector exposure and individual stock exposure. Maintaining lower volatility is also an important concern; to this end, beta adjustment and other sophisticated risk analysis is used.

Step 7: Trade Execution: RACE uses a combination of quantitative strategies and market information to maximize its trade executions. To this end, RACE has selected a panel of brokers to execute its trades in an efficient and confidential manner.

5.4. AUDITORS:

The Trustee, ICB has appointed S F Ahmed & Co. Chartered Accountants as the Auditor of the Fund for the first year. It is one of the reputed and oldest audit firms of the country and is associated with world-renowned Ernst & Young, based in New York.
