### RISK FACTORS

*Investing in the Vanguard AML BD Finance Mutual Fund One (hereinafter the Fund) bears certain risks that investors should carefully consider before investing in the Fund. Investment in the capital market and in the Fund bears certain risks that are normally associated with making investments in securities including loss of principal amount invested. There can be no assurance that the Fund will achieve its investment objectives. The Fund value can be volatile and no assurance can be given that investors will receive the amount originally invested. When investing in the Fund, investors should carefully consider the risk factors outlined below, which are not necessarily exhaustive or mutually exclusive:*

- 1. General:** There is no assurance that the Fund will be able to meet its investment objective and investors could potentially incur losses, including loss of principal when investing in the Fund. Investment in the Fund is not guaranteed by any government agency, the Sponsor or the AMC. Mutual funds and securities investments are subject to market risks and there can be no assurance or guarantee that the Fund's objectives will be achieved. As with any investment in securities, the Net Asset Value of the Fund may go up or down depending on the various factors and forces affecting the capital markets. Past performance of the Sponsors and their affiliates and the AMC do not indicate the future performance of the Fund. Investors should study this Offer Document carefully in its entirety before investing.
- 2. External Risk:** Performance of the Fund is substantially dependent on the macroeconomic situation and in the capital market of Bangladesh. Political and social instability may have an adverse effect on the value of the Fund's assets. Adverse natural climatic condition may impact the performance of the Fund.
- 3. Market Risk:** The Bangladesh capital market is highly volatile and mutual fund prices and prices of securities can fluctuate significantly. The Fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the Fund. Furthermore, there is no guarantee that the market prices of the units of the Fund will fully reflect their underlying Net Asset Values.
- 4. Concentration Risk:** Due to a limited number of listed securities in both the DSE and CSE, it may be difficult to invest the Fund's assets in a widely diversified portfolio as and when required to do so. Due to a very thin secondary fixed income/debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. Limited options in the money market instruments will narrow the opportunity of short term or temporary investments of the Fund which may adversely impact the returns.
- 5. Dividend Risk:** Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.
- 6. Underlying Liquidity Risk:** For investing in Pre-Public Offer Placement securities i.e. in unlisted equity securities by the Fund, may involve liquidity risk. In addition, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility. Debt securities, while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the Fund and may lead to the Fund incurring losses till the security is finally sold. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Fund incurring losses till the security is finally sold.
- 7. Investment Strategy Risk:** Since the Fund will be an actively managed investment portfolio, the Fund is subject to management strategy risk. Although the AMC will apply its investment process and risk minimization techniques when making investment decisions for the Fund, there can be no guarantee that such process and techniques will produce the desired outcome.

## Vanguard AML BD Finance Mutual Fund One

8. **Credit Risk:** Since the Fund will seek to also invest as per the Mutual Fund Regulations (2001) in both capital and money market securities, the credit risk of the money market issuers is also associated with the Fund. Investment in money market securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
9. **Interest Rate Risk:** The Net Asset Value (NAV) of the Fund, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Fund is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. In addition, zero coupon securities do not provide periodic interest payments to the holder of the security; these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
10. **Issuer Risk:** In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance and management decision to take on financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.

**THE MUTUAL FUND IS NOT GUARANTEEING OR ASSURING ANY RETURNS.**

a. post the amount separately in the customer account (other than NRB and Foreign applicants), and upon availability of fund, block the amount equivalent to the application money;

b. accumulate all the application/buy instructions received up to the cut-off date, deposit the amount in the "Public Issue Application Account" maintained with its bank within the **first banking hour of next working day** of the cut-off date. In case of application submitted by the Stock-dealer or the Merchant Banker's own portfolio, the application amount should also be transferred to the "Public Issue Application Account";

c. instruct the banker to block the account for an amount equivalent to the aggregate application money and to issue a certificate in this regard.

4. Banker of the Stockbroker/Merchant Banker shall block the account as requested for, issue a certificate confirming the same and handover it to the respective Stockbroker/Merchant Banker.

5. For Non-resident Bangladeshi (NRB) and Foreign applicants, the Stockbroker/Merchant Banker will prepare a list containing the draft information against the respective applicant's particulars.

6. The Stockbroker/Merchant Banker shall prepare category wise lists of the applicants containing Customer ID, Name, BO Account Number and Number of Securities applied for, and within **03 (three) working days** from the cut-off date, send it to the respective Stock Exchange in electronic (text format with tilde "~" separator) format, the certificate(s) issued by its banker, the drafts received from Non-resident Bangladeshi (NRB) and Foreign applicants and a copy of the list containing the draft information.

7. **On the next working day**, the stock Exchanges shall provide the AMC with the information received from the Stockbroker/Merchant Bankers, the drafts submitted by Non-resident Bangladeshi (NRB) and Foreign applicants and the list containing the draft information. Exchanges shall verify and preserve the bankers' certificates in their custody.

8. The application/buy instructions shall be preserved by the Stockbroker/Merchant Bankers **up to 6 months** from listing of the securities with exchange.

### Step-3 (AMC of Mutual Fund)

9. The Asset Management Company (AMC) shall prepare consolidated list of the applications and send the applicants' BOIDs in electronic (text) format in a CDROM to CDBL for verification. The AMC shall post the consolidated list of applicants on its website and websites of Exchanges. CDBL shall verify the BOIDs as to whether the BO accounts of the applicants are active or not.

10. **On the next working day**, CDBL shall provide the AMC with an updated database of the applicants containing BO Account Number, Name, Addresses, Parents' Name, Joint Account and Bank Account Information along with the verification report.

11. After receiving verification report and information from CDBL, the AMC shall scrutinize the applications, prepare category wise consolidated lists of valid and invalid applications and submit report of final status of

subscription to the Commission and the stock exchanges **within 10 (ten) working days** from the date of receiving information from the stock exchanges.

**12.** The AMC of mutual fund shall conduct category wise lottery with the valid applications **within 03 (three) working days** from the date of reporting to the Commission and the Exchanges, if do not receive any observation from the Commission or the Exchanges.

**13.** The AMC of mutual fund shall arrange posting the lottery result on their websites **within 06 (six) hours** and on the websites of the Commission and Stock Exchanges **within 12 (twelve) hours** of lottery.

**14. Within 02 (two) working days** of conducting lottery, the AMC shall:

**a.** Send category wise lists of the successful and unsuccessful applicants in electronic (text format with tilde “~” separator) format to the respective Exchange.

**b.** send category wise lists of unsuccessful applicants who are subject to penal provisions as per conditions of the Consent Letter issued by the Commission in electronic (text format with tilde “~” separator) format to the Commission and Exchanges mentioning the penalty amount against each applicant.

**c.** issue allotment letters in the names of successful applicants in electronic format with digital signatures and send those to respective Exchange in electronic form.

**d.** send consolidated allotment data (BOID and number of securities) in electronic text format in a CDROM to CDBL to credit the allotted shares to the respective BO accounts.

### **Step-4 (Intermediary)**

**15.** On the next working day, Stock Exchanges shall distribute the information and allotment letters to the Stockbroker/Merchant Bankers concerned in electronic format and instruct them to:

**a.** remit the amount of successful (other than NRB and Foreign) applicants to the AMC of mutual fund’s respective Escrow account opened for subscription purpose and unblock the amount of unsuccessful applicants;

**b.** send the penalty amount of other than NRB and Foreign applicants who are subject to penal provisions to the Mutual Fund’s respective Escrow Accounts along with a list and unblock the balance application money;

**16. On the next working day** of receiving the documents from the Stock Exchanges, the Stockbrokers/Merchant Bankers shall request its banker to:

**a.** release the amount blocked for unsuccessful (other than NRB and Foreign) applicants;

**b.** remit the aggregate amount of successful applicants and the penalty amount of unsuccessful applicants (other than NRB and foreign) who are subject to penal provisions to the respective “Escrow” account of the AMC opened for subscription purpose.

**17. On the next working day** of receiving request from the Stockbrokers/Merchant Bankers, their bankers shall unblock the amount blocked in the account(s) and remit the amount as requested for to the Mutual Fund’s “Escrow” account.

**18. Simultaneously,** the Stockbrokers/Merchant Bankers shall release the application money blocked in the customer accounts; inform the successful applicants about allotment of securities and the unsuccessful applicants about releasing their blocked amounts and send documents to the Exchange evidencing details of the remittances made to the respective “Escrow” accounts of the Fund. The unblocked amounts of unsuccessful applicants shall be

## Vanguard AML BD Finance Mutual Fund One

placed as per their instructions. The Stockbroker/Merchant Banker shall be entitled to recover the withdrawal charges, if any, from the applicant who wants to withdraw the application money, up to an amount of Tk. 5.00 (five) per withdrawal.

19. All drafts submitted by NRB or Foreign applicants shall be deposited in the Mutual Fund's respective 'Escrow' accounts and refund shall be made by the AMC by refund warrants through concerned stockbroker or merchant banker or transfer to the applicant's bank account through banking channel **within 10 (ten) working days** from the date of lottery.

### **Miscellaneous:**

20. The AMC, Stockbrokers and Merchant Bankers shall jointly ensure compliance of the above.

21. The bank draft (FDD) shall be issued considering TT Clean exchange rate of Sonali Bank Ltd. on the date of publication of abridged version of prospectus.

22. Amount deposited and blocked in the "Public Issue Application Account" shall not be withdrawn or transferred during the blocking period. Amount deposited by the applicants shall not be used by the Stockbrokers/Merchant Bankers for any purpose other than public issue application.

### 2. BACKGROUND

#### 2.1. FORMATION OF VANGUARD AML BD FINANCE MUTUAL FUND ONE IN THE CONTEXT OF PRESENT MARKET SCENARIO:

A mutual fund is an investment vehicle that is made up of a pool of funds collected from many investors for the purpose of investing in securities such as stocks, bonds, money market instruments and similar assets managed by a professional fund manager. Mutual funds are operated by Asset Managers who invest such fund's capital and attempt to produce capital gains and income for their investors. A mutual fund's portfolio is structured and maintained to match the investment objectives stated in its prospectus. The Asset Managers apply their investment management skills and necessary research works to ensure secured return of investors' investment.

Mutual fund (MF) is a very useful investment mechanism in a capital market. A developed capital market consists of varieties of investment instruments and MF is one of them. Mutual Funds contribution is bigger than other securities in developed countries. But the Market capitalization of mutual funds in Bangladesh's capital market is very low i.e. below 2% which is more than 30% in many developed countries.

Expert Asset Manager, Vanguard AML, backed by a dedicated research team, investors are provided with the services of an experienced fund manager who handles the financial decisions based on the performance and prospects available in the market to achieve the objectives of the mutual fund scheme.

Keeping in view the situation, Bangladesh Finance & Investment Company Limited (BD Finance), a non-banking financial institution, has stepped into the mutual fund sector. BD Finance has been at forefront of financial innovation in Bangladesh capital markets through its subsidiary BD Finance Securities Ltd. Now, to further enhance the efficiency and transparency of the country's capital markets BD Finance has decided to sponsor its first mutual fund, **VANGUARD AML BD FINANCE MUTUAL FUND ONE**.

The parties to the Fund are: Bangladesh Finance & Investment Company Limited (BD Finance as the Sponsor, Vanguard Asset Management Limited as the Asset Manager, Bangladesh General Insurance Company Limited as the Trustee and BRAC Bank Limited as the Custodian of the Fund).

#### 2.2 RATIONALE FOR LAUNCHING PROPOSED MUTUAL FUND UNDER CURRENT CAPITAL MARKET CONDITIONS

"A long way to go for mutual fund industry" may be a cliché statement but the sector is still at a nascent stage as it is very small compared to the capital market. Bangladesh stands nowhere close to the rest of the world. Though there are about 21 asset management companies licensed by BSEC. The asset management companies manage roughly Tk. 7,266.60 Crore which is less than 2% of the total market capitalization. As of June 30, 2015; 41 (forty one) close end mutual funds were listed on the Dhaka Stock Exchange.

The mutual fund sector registered a gain of 8.73 percent last year 2014 against 5.19 percent by DSEX, the benchmark index of the Dhaka Stock Exchange, on the back of good performance of asset managers. The NAV of a mutual fund shows its ability to give dividends to unit holders. When the NAV of a fund rises beyond its face value, it is more able to give dividends. Based on the latest NAV, the market capitalization of the closed-end mutual fund sector stands at Tk 5,105 crore.

Look at the overall growth of (close-End) MFs during the period of 2009 to 2013. The number of MFs was 19, 31, 37, 41, 41 from Year- 2009 – 2013 respectively. In 2010, only 12 closed-end MFs entered into the market and another 12 MFs entered the market for the next 4 (four) from 2011 – 2013. The figures show a gradual fall in the number of MFs entering the market during the period of 4 (four) years. By most measures the current listed closed-end mutual funds in the market, which number 41 in total, represent a very small

## Vanguard AML BD Finance Mutual Fund One

percentage of the total domestic market capitalization; thus there exists greater scope for market growth in the mutual fund sector. In the present scenario, mutual fund has emerged as the effective investment vehicle for those who like to rely on professional fund manager for investment management as it has been tested over time in both developed and emerging economies. The Professional fund management, portfolio diversification, low cost but high quality investing, convenience, flexibility and liquidity are distinct features of a mutual fund that make it a very reliable market instrument for small investors. It is apparent that there is simple opportunity for growth of our nascent mutual fund industry.

It can be said that in course of time mutual fund will play a vital role in our capital market because of its inherent strength of being a professionally managed investment vehicle and the small individual investors will gradually go under the umbrella of professional fund managers like those other emerging market.

Furthermore, the BSEC and other market regulators and industry veterans view responsible expansion of the mutual fund industry as a key driver for further development of the capital market in Bangladesh. With the above framework in mind, **Bangladesh Finance & Investment Company Limited (BD Finance)**, looks forward to greater participation for economic development of Bangladesh has joined forces with Vanguard Asset Management Ltd. to launch this mutual fund.

### 2.3 ADVANTAGES OF INVESTING IN VANGUARD AML BD FINANCE MUTUAL FUND ONE

A mutual fund's portfolio is structured and maintained to match the investment objectives stated in its trust deed and prospectus. The portfolio managers apply their investment management skills and necessary research works to ensure secured return of investors' investment. In this perspective, investment in mutual funds provides certain incremental advantages when compared to investment made directly in individual securities in the capital market. Highlighted below are some of the advantages that investors may benefit from when investing in a mutual fund:

- **Professional Management:** Mutual funds has gained popularity among individual and institutional investors as it provides them the opportunity to actually invest in handpicked stocks that are selected by the investment managers after thoroughly researching companies, industries and markets.
- **Diversification:** Diversified portfolio to be developed for the fund will help in lowering investment risk of the small investor. It also helps the small investors to access to the whole market, which is difficult at individual level.
- **Liquidity & Stability:** Greater participation of mutual funds will add to enhanced liquidity to the overall market and, since most mutual funds are long term investment vehicles, this will create price stability and better price discovery and reduce short term volatility in market.
- **Risk Management:** Investments across securities in a wide range of companies and industry sectors can help lower risk, in case of a company or sector fails. The diversified portfolio will allow investors gain a broad exposure to the overall stock market which may not be possible at the individual level.
- **MF IPO Quota:** In Bangladesh, the mutual funds enjoy a 10% (ten percent) reserved quota in all Initial Public Offerings (IPOs). Given the lack of supply of high-quality scripts in the Bangladeshi stock market, IPOs have historically outperformed the general Bangladeshi market index

## Vanguard AML BD Finance Mutual Fund One

significantly and, therefore, have been a major source of outperformance for the mutual fund industry in Bangladesh.

- **Tax Benefits:** Income will be tax free up to certain level, which is permitted as per Finance Act. Investment in the Fund would qualify for investment tax exemption under section 44(2) of the Income Tax Ordinance 1984. Gain Tax is fully waived for the investment by the Institutions in Mutual Fund from Financial Year 2013.
- **Dividend Payout:** Fund will distribute cash dividend or reinvestment or combination of both among the unit holders of the relevant scheme which shall not be less than 70% of annual profit of that fund or as determined by the BSEC from time to time.
- **Conversion:** The Fund can be converted into the Open End Scheme by taking the acceptance proposal of conversion as per BSEC rules and subject to approval of the Commission.
- **Transparency:** Management and operations of mutual funds are subject to strict regulations from the BSEC and the Sponsor appointed Trustee, both of whom closely monitor the performance of the funds. The laws governing mutual funds require exhaustive disclosure to the regulator and general public.
- **Audit:** Auditor of the fund appoints by Trustee and qualified the accounts under rules of BSEC; comply with BASs, BSA, ISA accepted by ICAB. Auditor of the fund shall be different from the auditor of the AMC.
- **Periodical Disclosure:** The AMC shall furnish reports at regular interval (i.e. daily, weekly, fortnightly, monthly, quarterly, half-yearly, yearly) to BSEC and as called upon to do so by the BSEC.
- **Provision:** Not to keep provision for losses against investment in mutual funds if the unit's cost price is equivalent to or lower than 85% of its Net Asset Value (NAV) in current market prices or as per BSEC rules.

### 2.4 THE CONSTITUTION OF THE FUND

- 3) The Fund shall follow the method approved by the Commission for valuation of the non-listed investment, if any, and the Asset Management Company and the Trustee shall periodically review the value of such investment. The auditors shall comment on such investment in the annual reports of the Fund.
- 4) When the securities were not traded in the Stock Exchanges on the particular valuing date, immediate previous average price, which one is nearer, but no longer than 30 (thirty) days to the valuing date will be taken into account.
- 5) The valuation of Listed Securities not traded within previous one month will be made within reasonable standards by the Asset Management Company and approved by the Trustee and commented upon by the Auditors in the Annual Report of the mutual fund but shall not be more than the intrinsic value of the securities.
- 6) For securitized debts, debentures, margin or fixed deposits, the accrued interest on such instruments on the date of valuation shall be taken into account in any calculation of Net Asset Value (NAV) of such securities in the portfolio of the Fund.

Following the valuation criteria as set forth above, the Fund will use following formula to derive NAV per unit:

$$\text{Total NAV} = V_A - L_T$$

$$\text{NAV per unit} = \frac{\text{Total NAV}}{\text{No. of units outstanding}}$$

$V_A$  = Value of Total Assets of the Fund as on date

$L_T$  = Total liabilities of the Fund as on date

$V_A$  = Value of all securities in vault + Value of all securities placed in lien + Cash in hand and at bank + Value of all securities receivables + Receivables of proceeds of sale of investments + Dividend receivables, net of tax + interest receivables, net of tax - Issue expenses amortized as on date - Printing, publication and stationery expenses amortized as on date.

$L_T$  = Value of all securities payable + Payable against purchase of investments + Payable as brokerage and custodial charges + All other payable related to printing, publication and stationery + Accrued deferred expenses with regard to management fee, trustee fee, annual fee, audit fee and safe keeping fee.

### 4. RISK CONSIDERATIONS

#### 4.1 RISK FACTORS

*Investing in the Vanguard AML BD Finance Mutual Fund One (hereinafter the Fund) bears certain risks that investors should carefully consider before investing in the Fund. Investment in the capital market and in the Fund bears certain risks that are normally associated with making investments in securities including loss of principal amount invested. There can be no assurance that the Fund will achieve its investment objectives. The Fund value can be volatile and no assurance can be given that investors will receive the amount originally invested. When investing in the Fund, investors should carefully consider the risk factors outlined below, which are not necessarily exhaustive or mutually exclusive:*

1. **General:** There is no assurance that the Fund will be able to meet its investment objective and investors could potentially incur losses, including loss of principal when investing in the Fund. Investment in the Fund is not guaranteed by any government agency, the Sponsor or the AMC. Mutual funds and securities investments are subject to market risks and there can be no assurance or guarantee that the Fund's objectives will be achieved. As with any investment in securities, the Net Asset Value of the Fund may go up or down depending on the various factors and forces affecting the capital markets. Past performance of the Sponsors and their affiliates and the AMC do not indicate the future performance of the Fund. Investors should study this Offer Document carefully in its entirety before investing.
2. **External Risk:** Performance of the Fund is substantially dependent on the macroeconomic situation and in the capital market of Bangladesh. Political and social instability may have an adverse effect on the value of the Fund's assets. Adverse natural climatic condition may impact the performance of the Fund.
3. **Market Risk:** The Bangladesh capital market is highly volatile and mutual fund prices and prices of securities can fluctuate significantly. The Fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the Fund. Furthermore, there is no guarantee that the market prices of the units of the Fund will fully reflect their underlying Net Asset Values.
4. **Concentration Risk:** Due to a limited number of listed securities in both the DSE and CSE, it may be difficult to invest the Fund's assets in a widely diversified portfolio as and when required to do so. Due to a very thin secondary fixed income/debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. Limited options in the money market instruments will narrow the opportunity of short term or temporary investments of the Fund which may adversely impact the returns.
5. **Dividend Risk:** Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.
6. **Underlying Liquidity Risk:** For investing in Pre-Public Offer Placement securities i.e. in unlisted equity securities by the Fund, may involve liquidity risk. In addition, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility. Debt securities, while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the Fund and may lead to the Fund incurring losses till the security is finally sold. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Fund incurring losses till the security is finally sold.
7. **Investment Strategy Risk:** Since the Fund will be an actively managed investment portfolio, the Fund is subject to management strategy risk. Although the AMC will apply its investment process and risk minimization techniques when making investment decisions for the Fund, there can be no guarantee that such process and techniques will produce the desired outcome.
8. **Credit Risk:** Since the Fund will seek to also invest as per the Mutual Fund Regulations (2001) in both equity and fixed income securities, the credit risk of the fixed income issuers is also associated with the

## Vanguard AML BD Finance Mutual Fund One

Fund. Investment in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

9. **Interest Rate Risk:** The Net Asset Value (NAV) of the Fund, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Fund is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. In addition, zero coupon securities do not provide periodic interest payments to the holder of the security; these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
10. **Issuer Risk:** In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance and management decision to take on financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.

**THE MUTUAL FUND IS NOT GUARANTEEING OR ASSURING ANY RETURNS.**

### 4.2 EXPECTED MARKET PERFORMANCE OF THE FUND

- 1) Mutual fund industry is still at its infancy in Bangladesh and represents less than 2% of market capitalization and currently a significant demand for the product exists. Therefore it is possible that demand for the Vanguard AML BD Finance Mutual Fund One units will be substantially over the supply of units.
- 2) Brand name of Bangladesh Finance and Investment Company Limited as a Sponsor, Bangladesh General Insurance Company Limited as a Trustee and BRAC Bank Ltd. as a Custodian, and their respective track record in the past may motivate investors to invest in this Fund.
- 3) Vanguard Asset Management Limited, the most experienced and highly qualified investment management team in Bangladesh as a new-generation Asset Management Company (AMC) would attract investors to invest in this Fund.

### 4.3 WHO TO INVEST AND HOW MUCH TO INVEST

- 1) Individuals who do not have tolerance of bearing risk and know nothing about the functioning of the capital market need not apply for the units of the Fund.
- 2) Individuals who are looking for long-term capital growth and dividend payment and are comfortable with the risk associated with equity investments should consider investing in the Fund.
- 3) An individual should also consider investing in the Fund if he/she can accept variability of returns, have a moderate to high tolerance for risk and is planning to invest in the Fund over the medium to long-term.
- 4) Considering other factors like the investment opportunities available in the market, return expectation, income level and consumption pattern, one may put only a limited portion of his/her total portfolio into the Fund.

### 5.3 ASSET MANAGER OF THE FUND

Vanguard Asset Management Limited (VAML) obtained the Asset Management Company (AMC) license from Bangladesh Securities and Exchange Commission (BSEC), regulator of the country's capital market on April 28, 2013 with a view to implementing stipulated investment objectives.

VAML manage funds across the entire risk-return continuum. These include equity funds, balanced funds and debt and money market oriented funds. VAML provide investment management, risk management to institutional, intermediary and individual investors. VAML aim to sustain that position through achieving long-term investment performance in line with our clients' needs and providing superior client relationship management.

VAML's core strength stems not only from its secure system and processes, but from the quality of its intellectual capital, which derives from the best and professional minds. At the same time there is a robust risk management framework with in-built controls and balances. We make investments, directly and indirectly through funds that we manage in stock market, debt securities as well as public and private equities. Our professional team's research oriented methodology imbues them with the right knowledge to identify the best investment opportunities in Bangladesh for the benefit of the investors.

We are committed to extensive research and process driven approach to investment management. Our services include institutional portfolio management. By developing and deploying integrated investment strategies we enable our investors to manage risk and navigate constantly challenging and changing markets.

Our logo represents our aspiration toward the highest standard of expertise as well as our dedicated transaction services to high-net-worth individuals and families.

#### Investment Objective

Our investment objective is to provide superior risk adjusted returns over a medium to long term by investing in strong companies, with good management and at a great price by leveraging our time tested investment process. The investment specialists seek to provide consistent out-performance over time to its investors with a strong attention to risk management. We believe our investment process, grounded in the importance of fundamental research, allows our experienced investment professionals to identify quality growth opportunities in the capital markets.

#### Investment Philosophy

At the core of Investment Philosophy is a set of fundamental investment beliefs which are the underpinnings of all investment policies of the fund.

## Vanguard AML BD Finance Mutual Fund One

- ***Investment premises:*** The Core investment premise of the Fund is the Capital Market that is not completely efficient. A well-organized and thorough research effort combined with a disciplined portfolio management approach will enable outperformance of the market index over time and most importantly applying a robust investment process that include relevant macro economic trends, sector drivers, quality of the issuer, a disciplined risk management process and effective capital allocation.
- ***Tailor Made Solution:*** Fund manager needs to create benefits for the fund with its own expertise in financial specialties. Fund will be managed by experts in line with investment objectives and risk constraints which clearly defined and proven processes, ensuring fund's mandate is being implemented proficiently. For all the solutions, this Investment Philosophy focuses on performance, risk management, and ethical standards.

### Investment Process

At Vanguard AML BD Finance Mutual Fund one, our emphasis is on delivering superior long-term risk-adjusted performance. And so we follow a disciplined approach to investment and risk management. Our investment process comprises three main steps to investing: Generation of Ideas, Evaluation of companies and Manufacturing and Monitoring of portfolios. A robust monitoring and risk management process ensures checks and balances at every stage. Here is what happens through every step of the investment process:

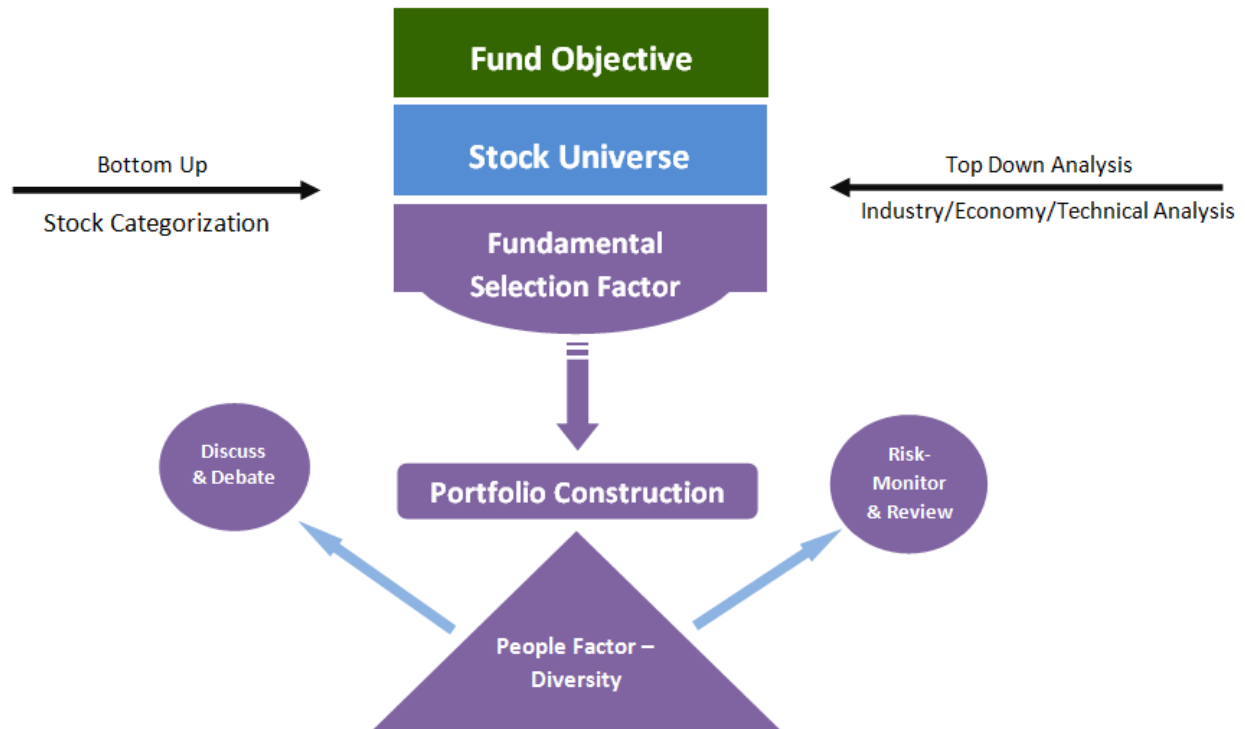

**Generation of ideas:** Analysts and portfolio managers actively identify new ideas: For equity investing, the search spectrum includes investment team meetings, meetings with a company's management, competitors, suppliers, industry experts, regulators, external research and reports. And for fixed income investment, investment ideas are born out of team strategy meetings, in-depth interaction with issuers and market participants, macro analysis and internal and external research ideas.

**Evaluation of companies:** Filters such as liquidity, market capitalization ownership and other parameters help identify opportunities, which are then thoroughly evaluated for profitability, business attractiveness, competitive positioning, balance sheet strength, management track record, corporate governance and valuations for equities. Thorough credit or issuer analysis and macro analysis underpins the evaluation framework for identifying issuers and instruments for fixed income portfolios.

**Developing or Monitoring of portfolios:** Among all the ideas that are generated and evaluated, the fund manager picks those that have the most potential. Portfolios are monitored continuously to ensure that they are positioned to meet their investment objectives and are within the set risk framework. A fund manager may decide to exit a holding on achieving the price target or for other reasons such as weakened business prospects or credit, or if better investment opportunities wait in the wings.

## Vanguard AML BD Finance Mutual Fund One

Our investment process has been developed consistent with our investment objectives and investment philosophy. The key elements of our process are as follows:

1. **Top down and bottom up** - Our investment portfolios are constructed employing our proprietary methodology of a top-down overlay of the economy, sector and markets risks and bottom-up rigorous fundamental analysis. Our Research team focuses on understanding individual companies as businesses rather than simply as stocks by conducting independent research. Our top down and bottom up investment approach is further enhanced by our proprietary technical trading platform. We combine time-tested investment specialization, industry knowledge and active risk management to seek investment opportunities that we believe will be promising over time. We do not restrict our analysis to the traditional framework of industry buckets. Instead, we employ a truly comprehensive process that aims to identify the best performing companies in a given industry. As investment managers, our mission is to take advantage of these opportunities while effectively managing and diversifying the risks-on behalf of our clients. Our investment process is a marriage of traditional fundamental security valuation and proprietary quantitative risk-control techniques.
2. **Risk management** - The investment portfolio is actively monitored on a regular basis and re-balanced as required. While we pride ourselves on taking a long-term approach to investing our client assets, our process is fluid and dynamic. Our portfolios are constantly monitored using and strictly adhering to our research and analysis driven process. While we do not have a mechanical sell discipline, we will typically either eliminate or trim positions when they no longer meet our three critical factors as stated in our investment objectives. Moreover, we perform a rigorous review on any investment that declines materially in price. Importantly, our emphasis upon downside protection leads us to investments in companies with attractive valuations. We believe this emphasis limits our loss potential should the catalyst not materialize. We embrace the notion that security prices must follow company fundamentals. Simply put, a stock's weight in a portfolio should be directly related to its qualitative and quantitative value, rather than its weight in an index. However, stock price/valuation and liquidity is equally important. We attempt to build downside protection into our process by evaluating and quantifying the risks versus

## Vanguard AML BD Finance Mutual Fund One

the reward opportunity of every investment in the portfolio. This is achieved by analyzing: free cash flow; the intrinsic or asset value of the company; price-to-sales and/or price-to-tangible book value. This analysis helps us to assess downside risk should unexpected adverse events unfold.

3. **Valuation process** - Our corporate finance approach and cash flow focus helps us better identify potential investments. Our analysis will often include breaking down a company's financial results by business segment to determine a valuation for the whole business. Importantly, our valuation analysis focuses upon absolute valuations, rather than relative valuations; we believe this process focus helps to limit losses and downside risk. Qualitative measures and quantitative measures assist us in determining attractive investments. While evaluating management strength and changes within a company's business are examples of qualitative measures, quantitative measures may include various financial ratios including price-to-cash flow, price-to-sales and price-to-book analysis. All of these elements contribute to assist us in determining the appropriate valuation for an investment and its respective return expectations.
4. **Forward looking analysis** - We do not believe that investing after positive or negative news is an investment discipline. Rather, we seek to uncover the factors that will drive business improvement three months to a year in advance and take positions accordingly. So that, portfolios can fully benefit when these inflection points and catalysts emerge and are recognized. The ingredients for change can come in many forms. For example, there are company specific catalysts, i.e. a new management team, a shift in business strategy, or a restructuring to "unleash" hidden assets. Change can also come from an improving outlook for an entire industry or a changed regulatory framework. We pride our self upon our ability to think independently and identify unique opportunities.

**APPLICATIONS NOT IN CONFORMITY WITH THE ABOVE REQUIREMENTS ARE LIABLE TO BE REJECTED.**

## 8.5 SUBSCRIPTION BY AND REFUND TO NON-RESIDENT BANGLADESHI (NRB)

- 1) Non-resident Bangladeshi (NRB) and Foreign applicants shall submit bank drafts (FDD), issued in favor of the Mutual Fund for an amount equivalent to the application money, with their application to concerned Stockbroker/Merchant Banker. The draft (FDD) shall be issued by the Bank where the applicant maintains NITA/Foreign Currency account debiting the same account. No banker shall issue more than two drafts from any NITA/Foreign Currency account for any public issue. At the same time, the applicant shall make the service charge available in respective customer account maintained with the Stockbroker/Merchant Banker.
- 2) The bank draft (FDD) shall be issued considering TT Clean exchange rate of Sonali Bank Ltd. on the date of publication of abridged version of prospectus.
- 3) Stockbrokers/Merchant Bankers shall send the bank drafts (FDD) submitted by successful NRB and Foreign applicants to the Stock Exchange and return the drafts submitted by unsuccessful applicants.
- 4) Stockbrokers/Merchant Bankers shall send the drafts (FDD) submitted by unsuccessful NRB and Foreign applicants who are subject to penal provisions, to the respective Stock Exchange, along with a list.

- 
- 5) Stock Exchanges shall send the drafts submitted by successful NRB and Foreign applicants and also by unsuccessful NRB and Foreign applicants who are subject to penal provisions, to the AMC.
  
  - 6) In case of drafts (FDD) submitted by successful NRB or Foreign applicant for any amount excess to the value of securities to be allotted or by unsuccessful NRB and Foreign applicants who are subject to penal provisions, refund of the balance amount shall be made by the AMC of mutual fund to the applicant through bank drafts issued in the same currency **within 7 (seven) working days** of receiving the drafts from Stock Exchange.

## 8.6 ALLOTMENT

The AMC of mutual Fund reserves the right of accepting any application, either in whole, or in part. Within 02 (two) working days of conducting lottery, the AMC shall issue allotment letters in the names of successful applicants in electronic format with digital signatures and send those to respective Stock Exchange in electronic form. On the next working day, Stock Exchanges shall distribute the information and allotment letters to the Stockbroker/Merchant Bankers concerned in electronic format. The Stockbrokers/Merchant Bankers shall inform the successful applicants about allotment of securities.
