RISK FACTORS

Investors should know that IDLC Growth Fund is not a guaranteed or assured return scheme and the past performance of the Sponsor and their affiliates / AMC does not guarantee future performance of the Scheme. The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. Investing in the IDLC Growth Fund involves some general risks and some scheme specific risks that investors should carefully consider before investing in the Fund.

General Risk Factors:

- I. Due to the fluctuation of the price / value / interest rates of the securities in which Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.
- II. Government policy and tax laws may change, affecting the return on investments of the fund, which may eventually affect the NAV and return of the Units.
- III. Large number of redemption requests, may lead to an asset-liability mismatch and therefore may require the investment manager to make a quick sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- IV. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme remain idle and no return is earned thereon. The inability of the Scheme to make intended securities purchases and sales, due to settlement problems, could cause the Scheme to miss certain investment opportunities.

Risk factors associated with investing in equities and equity related instruments:

- I. As the major portion of the fund will be allotted to growth assets, the risk is also high in this case. Generally, the future growth prospect of a company depends on multiple factors, some of which are beyond the level of management capacity. So, if one or some of these factors go unfavorable, it is possible that the company may not be able to deliver the expected growth.
- II. Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis.
- III. Securities, which are not listed on the stock exchanges, are illiquid in nature and entails higher liquidity risk, in comparison to securities that are listed on the exchanges.
- IV. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges.
- V. Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.

Risk factors associated with investing in Fixed Income Securities:

- I. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates.
- II. Money market instruments lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- III. Investment in debt instruments are subject to credit risk i.e. the risk of an issuer's inability to meet interest or principal payments on its obligations, which may have their credit ratings downgraded. Changes in financial conditions of an issuer or changes in economic and political conditions specific to the issuer are factors that may affect an issuer's credit quality and security values.
- IV. Government securities have price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- V. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to default risk of the issuer. Therefore, the interest rate risk of zero coupon securities is higher.
- VI. Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

THE MUTUAL FUND IS NOT GUARANTEEING OR ASSURING ANY RETURNS

CHAPTER 1: PRELIMINARY

1.1 Publication of Prospectus for Public Offering

IDLC Asset Management Limited (IDLC AML) has received the Asset Management license from the Bangladesh Securities & Exchange Commission under Bangladesh Securities & Exchange Commission Act, 1993 and সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১ made there under and also received consent for issuing prospectus for public offering. A complete copy of the prospectus of the public offering is available for public inspection at South Avenue Tower (5th Floor), Unit No. 502, House No. 50, Road No. 03, 7 Gulshan Avenue, Dhaka 1212, (Corporate Office of IDLC Asset Management Limited) – the asset manager of the IDLC Growth Fund, hereinafter referred to as the Fund.

1.2 Consent of the Bangladesh Securities and Exchange Commission

IT MUST BE DISTINCTLY UNDERSTOOD THAT IN GIVING THIS APPROVAL, THE COMMISSION DOES NOT TAKE ANY RESPONSIBILITY FOR THE FINANCIAL SOUNDNESS OF THE FUND, ANY OF ITS SCHEMES OR THE ISSUE PRICE OF ITS UNITS OR FOR THE CORRECTNESS OF ANY OF THE STATEMENTS MADE OR OPINION EXPRESSED WITH REGARD TO THEM. SUCH RESPONSIBILITY LIES WITH THE ASSET MANAGER, TRUSTEE, SPONSOR AND / OR CUSTODIAN."

1.3 Listing of the Fund

The Fund, being an open-end one, will not be listed with any stock exchange of the country. Hence the units of the Fund will not be traded in the stock exchanges unless otherwise BSEC and Stock Exchanges make arrangement in future. In that case, public communication will be made as per BSEC's approval.

The securities will be kept in dematerialized form in Central Depository Bangladesh Limited (CDBL) to facilitate the holding and transfer of the units of the Fund. Units will always be available for sale and surrender/repurchase except on the last working day of every week and during book closure period / record date of the Fund at the corporate office of IDLC AML and the authorized selling agents. IDLC AML shall disclose selling price and surrender value/repurchase price of units at the beginning of business operation on the first working day of every week as per বিধিমালা.

1.4 Availability of Documents for Inspection

- I. Copy of this prospectus will be available at the registered office of the Asset Manager and offices of the authorized selling agents of the Fund. This prospectus will also be available at the website of Bangladesh Securities and Exchange Commission (www.secdb.org) & IDLC Asset Management Limited (www.aml.idlc.com);
- II. Copy of the Trust Deed will be available for public inspection during business hours at the office of the asset manager of the Fund; the document may also be viewed on the website of IDLC Asset Management Ltd. 1.6 General Information

- I. This prospectus has been prepared by IDLC Asset Management Limited based on the Trust Deed executed between the Trustee and the Sponsor of the Fund, which is approved by the Commission and available publicly. The information contained herein is true and correct in all material aspects and there are no other material facts, the commission of which would make any statement herein misleading.
- II. No person is authorized to give any information to make any representation not contained in this prospectus and if so given or made, such information or representation must not be relied upon as having been authorized by IDLC Asset Management Limited.
- III. The issue as contemplated in this document is made in Bangladesh is subject to the exclusive jurisdiction of the court of Bangladesh. Forwarding this prospectus to any person residing outside Bangladesh in no way implies that the issue is made in accordance with the laws of that country or is subject to the jurisdiction of the laws of that country.

1.7 Purchase & Surrender of Units

IDLC AML will maintain two separate BO Accounts with BRAC Bank Limited, custodian of IDLC Growth Fund for creation and redemption of units namely "IDLC Growth Fund - Sale of units" and "IDLC Growth Fund - Repurchase of units".

For sale of units, IDLC AML will issue a certificate for the units sold and send it to BRAC Bank Ltd. for setting up of demat request. After the acceptance of demat setup by BRAC Bank Ltd. from its terminal, units will be credited to the BO Account of "IDLC Growth Fund - Sale of units". Then BRAC Bank Ltd. will transfer the units from "IDLC Growth Fund - Sale of units" to the unit holders' BO Accounts as per instruction of IDLC AML.

In the case of redemption / repurchase by the Asset Manager, the unit holder will transfer his / her / the Institutional holder's units to the "IDLC Growth Fund - Repurchase of units". BRAC Bank Ltd. will remat the units from the "IDLC Growth Fund - Repurchase of units" BO account as per instruction of IDLC AML. Simultaneously, the payment will be made to the investor's Bank Account through Cheque / BEFTN as per the request of the investor.

1.8 Systematic Investment Plan (SIP)

A Systematic Investment Plan or SIP is a smart and hassle free mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). A SIP is a planned approach towards investments and helps to inculcate the habit of saving and building wealth for the future.

Buy and Surrender in SIP Process:

An investor can invest through SIP either by auto debit system provided against investor's Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly / bi-monthly / quarterly). Investor must have a BO Account; he / she will get the SIP units in his / her BO Account and may get a discount from ongoing Weekly "Investor's Buy Price" of the mutual fund.

It is advisable to continue SIP investments with a long-term perspective, there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, 1% discount from the "Investor's sale / surrender price" may be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender his / her total units through the AMC or the Selling Agents.

Benefits may be offered for Investors such as:

SIP encourages a disciplined investment; while invested through SIP, investor commits himself / herself to save regularly. Different benefits may be offered as follows:

- **Flexibility:** Investor can start SIP with a very small amount i.e. BDT 3,000 / BDT 4,000 / BDT 5,000 or multiple of additional BDT 1,000. One can also increase / decrease the amount being to be invested in regular fashion.

IDLC Growth Fund - 13

- **Flexible SIP Tenor:** The SIP will be offered for at least 2 years or any other higher period set by the AMC. However, investor can set SIP scheme for 3 years / 5 years or as decided by the Asset Manager. After this period, the individual scheme will be matured and may surrender or continue after maturity. If surrendered, no fees / charges may be charged on surrender and may also offer highest premium over the declared surrendered price at that time.
- **No Minimum lot size:** There will be no minimum lot size under the SIP as like normal investors. Based on "Investor's Buy Price" per unit available for SIP investors, units will be credited to investor's BO account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.
- **Buy at discount and Surrender at premium:** SIP investor may buy units at a discount from Weekly "Investor's Buy Price" offered to the normal investors. In addition to that, SIP investor may surrender at a premium of surrender price offered to normal unit holders at maturity as per SIP brochure.
- **CIP option for the SIP investors:** SIP investors can choose either option of cash dividend or Cumulative Investment Plan (CIP). If a SIP investor chooses CIP (i.e. Dividend reinvestment process) instead of cash dividend, they may also enjoy CIP units at a discount of prevailing "Investor's Buy Price" used for CIP conversion. After CIP conversion, they will get dividend on total number of units in the next year.

Detailed of SIP Scheme, Scheme information will be provided in the Scheme Brochure in future

IDLC Growth Fund - 20

CHAPTER 2: BACKGROUND

2.1 Preamble to the formation of IDLC Growth Fund

Mutual Fund is an investment tool that collects pool of fund from individual and institutional investors with a view to investing the fund in securities like stocks, bonds, money market instruments and other securities. Mutual funds are the most cost effective way to diversify the investment portfolio across different asset categories. Moreover, mutual funds offer professional money management expertise at a reasonable cost. Especially in a developing country like Bangladesh where mass people are ignorant about investment management strategies, importance of such professional management services are beyond question.

The origin of mutual funds are often cited to be traced in Europe back in 19th century. By the time mutual fund industry grew enormously with innovation of different investment strategies catering the need of different types of investors.

Mutual fund was first introduced by Investment Corporation of Bangladesh (ICB), a public sector financial institution, in 1980. Later on, private companies started to enter the industry in 2000. There are only 36 closed end mutual funds and 34 open end mutual funds in Bangladesh and total AUM is approximately BDT 139.4 bn as on December 2017, while in India Asset under Management is approximately BDT 21,270.0 bn as on December 2017.

Recognizing the huge untapped market potential of mutual fund industry in Bangladesh and the need to offer a reliable solution for investment to the people, IDLC Asset Management Limited (IDLC AML) launched its first open-end mutual fund namely "IDLC Balanced Fund" on May 30, 2017. In order to cater diverse investment needs of people IDLC AML has decided to come up with another investment solution namely, "IDLC Growth Fund". It will be an open-end mutual fund that will aim to generate long-term capital appreciation through investment predominantly in equity and equity related instruments.

2.2 Necessity of Unit Fund in the Context of the Current State of Affairs of the Capital Market of Bangladesh

The capital market of Bangladesh is still in a nascent stage which portrays both opportunities and challenges. Though stock exchanges were formally established as early as 1954, activities remained very low until 1990s. Market experienced both bubble and burst during its journey of around six decades. Though over the years the capital market is transforming into a more structured and regulated form, it is still lagging behind in terms of number of stocks listed, asset classes available for investment etc. In emerging markets like Bangladesh where mass people lack the knowledge of proper investment decision, the scope of mutual fund industry, that offers professionally managed investment management service, is very bright. The mutual fund industry of Bangladesh is still very small compared to other countries.

The global Asset under Management (AUM) stood at USD 69.1 trillion in 2016 according to a report of BCG (Boston Consulting Group). AUM to GDP ratio is only 0.80% in Bangladesh, while it is 13.7% in India and 87.7% in USA. So, there is ample opportunity of this industry to grow in Bangladesh.

2.3 Advantages of investing in IDLC Growth Fund

IDLC Growth Fund will be managed in manner that will ensure utmost benefit for the investors from their investment. Generally mutual funds are designed in such a way that reduces the risk of investment compared to direct investment in other securities like shares, debt instruments etc. In addition investors will enjoy the following advantages from investing in "IDLC Growth Fund":

- I. IDLC Asset Management Limited through its proper corporate governance culture will ensure proper compliance with সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১ under all circumstances.
- II. IDLC Growth Fund will ensure adequate investment in the growth assets (predominantly in equity and equity related instruments) to fulfill the ultimate investment objective of providing capital gain in the long-run.
- III. The fund will maintain a diversified portfolio through adequate professional knowledge which will reduce individual investment risk that would have been otherwise difficult through direct investment.

- IV. Experienced professional management will help identify and secure potential investment opportunities.
- V. The fund will offer minimum 50% of annual realized profit as cash dividend on regular basis. However, investors will have the discretion of choosing between cashing out the dividend and reinvesting the dividend through purchasing new units.
- VI. Investors can hold larger number of securities through holding a single unit of the fund without having to incur high transaction cost like brokerage fee.
- VII. Mutual funds enjoy 10% reserved quota in Initial Public Offerings (IPOs) under the current rules provided by BSEC, which enables the investors to enjoy the benefits of participating in IPOs indirectly.
- VIII. Dividend income from this Fund will be tax free up to BDT 25,000.00 (Twenty Five Thousand Taka) as permitted by the Finance Act.
- IX. As an open-end fund is not traded in the secondary market, its price will not be subjected to the interaction of demand and supply. As purchase and surrender price will be calculated based on Net Asset Value (NAV) as prescribed in সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, the price of the fund will be more stable than that of other securities traded in secondary market.

2.4 Tax Advantages

Investment in this Fund by individual investors will enjoy tax exemption benefit under Section 44(2) of the Income tax Ordinance, 1984. Country's Finance Act and Government's tax policies will always determine the tax benefits from investment in mutual funds. However, investors in mutual funds are entitled to the following tax benefits under the current tax policies:

1. Tax advantage on Income:

Income from a mutual fund or a unit fund up to BDT 25,000.00 (Twenty Five Thousand Taka only) is exempted from tax as per clause 22A of 6th Schedule (Part A) under Income Tax Ordinance, 1984.

2. Investment Tax Credit:

According to the Section 44(2)(c) under Income Tax Ordinance, 1984, the amount of allowable investment is actual investment or 25% of total taxable income or BDT 1,50,00,000.00 (One Crore & Fifty Lac Taka only), whichever is lower. According to the Section 44(2) (b) under Income Tax Ordinance, 1984, the tax rebate rate is from 15% to 10% as per following schedule:

Total Taxable Income	Rate of Tax Rebate
Up to BDT 10,00,000.00	15% of eligible amount
From BDT 10,00,001.00 to BDT 30,00,000.00	i. BDT 2,50,000.00 of eligible amount at the rate of 15% ii. Remaining of the eligible amount at 12%
Above BDT 30,00,000.00	i. BDT 2,50,000.00 of eligible amount at the rate of 15% ii. Next BDT 5,00,000.00 of eligible amount at the rate of 12% iii. Remaining of the eligible amount at 10%

Example:

An individual's total taxable income is BDT 50,00,000.00 (Fifty Lac Taka only) in a year and actual investment is BDT 20,00,000.00 (Twenty Lac Taka only). His eligible investment for tax rebate will be the **lowest amount of the following figures**:

- i. Actual Investment: BDT 20,00,000.00
- ii. 25% of total taxable income: BDT 12,50,000.00 (25% x BDT 50,00,000.00)
- iii. Maximum eligible investment: BDT 1,50,00,000.00

Considering the above three figures, the eligible investment will be BDT 12,50,000.00 (Twelve Lac Fifty Thousand Taka only). As his total taxable income is above BDT 30,00,000.00 (Thirty Lac Taka only), so the total tax rebate for the individual will be calculated as follows:

First BDT 2,50,000.00 of eligible amount at the rate of 15%	= BDT 37,500.00 (15% x BDT 2,50,000.00)
Next BDT 5,00,000.00 of eligible amount at the rate of 12%	= BDT 60,000.00 (12% x BDT 5,00,000.00)
Remaining of the eligible amount (BDT 5,00,000.00) at the rate of 10%	= BDT 50,000 (10% x BDT 5,00,000.00)
Total Rebate	BDT 1,47,500.00

The investor can reduce his tax liability of BDT 1,47,500.00 (One Lac Forty Seven Thousand & Five Hundred Taka only) by investing in the mutual fund.

THIS IS A SIMPLE ILLUSTRATION. THE AMOUNT CAN VARY AND WILL DEPEND ON INDIVIDUAL CIRCUMSTANCES. ALSO, PLEASE NOTE THAT THE TAX REBATES MAY CHANGE AS PER GOVERNMENT'S DECISION IN ANY YEAR. INVESTORS ARE ADVISED TO CONSULT WITH THE TAX ADVISOR, IF REQUIRED.

CHAPTER 3: IDLC GROWTH FUND

3.1 Formation of the Fund

The Trust Deed of the Fund was registered on September 11, 2017 under the Trust Act, 1882 and Registration Act, 1908 through a Trust Deed entered into between IDLC Finance Ltd. and Bangladesh General Insurance Company Limited (BGIC). The Fund was registered by the BSEC on March 07, 2017 under the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১.

Investment Liquidity	All money collected under the Fund shall be invested only in encashable / transferable instruments, securities whether in money market or capital market or privately placed Pre-IPO equity shares, preference shares, debentures or securitized debts. The Mutual Fund shall get the securities purchased or transferred in the name of the Fund.
Investment Restriction	<ul style="list-style-type: none">➤ The Fund shall not invest in or lend to another Scheme under the same Asset Management Company➤ The Fund shall not acquire any Asset out of Trust property, which involves the assumption of any liability that is unlimited or shall result in encumbrance of the Trust Property in any way.

	<ul style="list-style-type: none"> ➤ The Fund or the Asset Management Company on behalf of the Fund shall not give or guarantee term loans for any purpose or take up any activity in contravention of the বিধিমালা. ➤ The Fund can transfer investment from one scheme to another if – <ul style="list-style-type: none"> - the transfer of listed securities is made in current market price through spot market - the investment objective of the scheme (which receives the securities) matches with the transferred securities ➤ The Fund shall buy and sell securities on the basis of deliveries and shall, in all cases of purchases, take delivery of securities and in all cases of sale, deliver the securities on the respective settlement dates as per the custom and practice of the stock exchanges and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction. ➤ The Fund shall not involve in option trading, short selling or carry forward transaction. ➤ The Fund shall not take any loan for investment purpose. ➤ The Fund shall not buy its own unit.
Investment Decision	Only the Asset Management Company will make the investment decisions and place orders for securities to be purchased or sold for the Scheme's portfolio.

3.6 Valuation policy

As per section 58 of the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, the fund shall fix the valuation method for the Scheme subject to the prior approval of the Commission. The investment valuation policy of the Fund will be as follows:

Listed Securities	<ul style="list-style-type: none"> ➤ For listed securities, the average quoted closing price on the stock exchanges on the date of valuation shall form the basis of any calculation of Net Asset Value of such securities in the portfolio of the Fund. ➤ For Listed Securities not traded in the Stock Exchanges on the particular valuing date, immediate previous average quoted closing price, which one is nearer but no longer than one month, to the valuing date will be taken into account. ➤ For Listed Securities not traded within previous one month will be made based on their reasonable value by the Asset Management Company and approved by the Trustee and commented upon by the Auditor in the Annual Report of the Scheme of the Mutual Fund but shall not be more than the intrinsic value of the securities.
Non-listed Securities	<ul style="list-style-type: none"> ➤ The Fund shall follow the method approved by the Commission for valuation of the non-listed investment (if any), if any, and the Asset Management Company and the Trustee shall periodically review the non-listed investment, if any. The auditor will comment on such investment in the annual report of the Scheme of the Fund. ➤ The Asset Management Company and the Trustee will value the non-listed securities at least once in every three months. ➤ Once non-listed securities are valued, the valued amount will be considered for purpose of valuing the Fund's assets in any interval of time until the securities are further revalued by the Asset Management Company.
Others	<ul style="list-style-type: none"> ➤ For securitized debts, debentures, margin or fixed deposits, the accrued interest on such instruments on the date of valuation shall be taken into account in any calculation of Net Asset Value of such securities in the portfolio of the Fund. ➤ In case of deferred expenses, accrued expenses for the period will be taken into account for determining total liabilities.

Net Asset Value (NAV) calculation:

The Fund intends to determine its NAV per unit on the last business day of each week by dividing the value of the net asset of the Fund (the value of total assets less total liabilities as per Rule 60 of the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১) by the total number of outstanding units. The Fund will use the following formula to derive the NAV per unit:

Total NAV = $V_A - L_T$

NAV per unit = Total NAV / No. of outstanding units

V_A = Value of all securities in vault + Value of all securities placed in lien + Cash in hand and at bank + Value of all securities receivables + Receivables of proceeds of sale of investments + Dividend receivables net of tax + Interest receivables net of tax + Issue expenses amortized as on date + Printing, publication and stationery expenses amortized as on date

L_T = Value of all securities payable + Payable against purchase of investments + Payable as brokerage and custodial charges + Payable as Trustee fees + All other payable related to printing, publication and stationery + Accrued deferred expenses with regard to management fee, annual fee, audit fee and safe keeping fee

3.7 Limitation of Expenses

- I. All expenses should be clearly identified and appropriated to the Fund.
- II. The Asset Management Company may charge Fund for Investment Management and Advisory fees as per the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১.
- III. The Asset Management Company may amortize the initial issue costs of the Fund over a period of 7 (seven) years on a straight line method provided that initial issue expenses/Initial Public Offering (IPO) costs shall not exceed 5% of the collected amount raised under the Fund.
- IV. In addition to the fees mentioned hereinabove, the Asset Management Company may charge the Scheme of the Fund with the following recurring expenses, namely:
 - a. Marketing and selling expenses including commissions of the selling agents, if any;
 - b. Brokerage and Transaction costs;
 - c. Cost of registrar services for transfer of securities sold or redeemed;
 - d. Trusteeship fees;
 - e. Custodian fees;
 - f. Dematerialization fees and others (if any);
 - g. Re-registration fees (if any).
 - h. Relevant expenditure for calling meeting by the trustee committee; and
 - i. Other expenses applicable to the Mutual Fund.
- V. The expenses referred to hereinabove and any other fees payable or reimbursable to the Asset Management Company or the Trustee shall be charged to the open-end Mutual Fund.

3.8 Price Fixation Policy

After completion of initial subscription, the Fund will be made open to the investors for regular buy-sale of Units. The date of re-opening shall be declared by the asset manager upon approval of the Trustee and with due intimation to the BSEC.

The asset manager shall calculate the Net Asset Value (NAV) per unit on the last working day of every week as per formula prescribed in the বিধিমালা and shall disclose sales price and repurchase/surrender price per unit determined on the basis of NAV before commencement of business operation of the first working day of the following week to the Commission and to the investors through at least one national daily, the website of the asset management company and the authorized selling agents of the Fund. In case of holidays, the Asset Management Company shall notify the same on the next working day.

The difference between purchase price and surrender price will be decided by the Board of Directors of the Asset Management Company and shall not be more than 5.0% of the sales price per unit. The unit holders may surrender their units during the business hour as specified by the Asset Management Company. The Fund shall be liable to repurchase the units at the surrender price determined by the Asset Management Company. Sale and repurchase of units by the Asset Management Company shall remain closed during the book closure period of the fund unless the Commission decides otherwise.

3.9 Purchase & Surrender Procedure

- I. The Units of IDLC Growth Fund may be bought / surrendered through IDLC Asset Management Limited and authorized selling agents appointed by the Asset Manager from time to time and any other procedure as prescribed by the Asset Manager. Surrender of units is allowed only through IDLC AML or the selling agents from which the units are originally purchased.
- II. Minimum purchase amount during public subscription is –

- **For individual investors:** BDT 5,000.00 (Five Thousand Taka) against 500 units
- **For institutional investors:** BDT 50,000.00 (Fifty Thousand Taka) against 5,000 units

The minimum subscription amount for the individual or institution may change in the future upon due approval from the trustee.

- III. Application for purchase of units should be accompanied by an account payee cheque / pay order / bank draft / BEFTN / RTGS / IBFT or any other process as approved by the regulatory authority in favor of '**IDLC Growth Fund**' for the total value of units.
- IV. After clearance / encashment of the cheque / pay order / bank draft / BEFTN / RTGS / IBFT or any other process as approved by the regulatory authority, the applicant will be issued with a "Confirmation of Unit Allocation" against every purchase of units he / she / the institutional investor applies for; the units will also be delivered to the Unit holder's BO A/C.
- V. After receiving the surrender application form at the AMC's office, the cheque / BEFTN will be paid / made within 5 (five) working days as per investor's request.
- VI. Partial surrender (fraction of total units held under a Unit Allocation Confirmation) is allowed without any additional cost subject to minimum surrender quantity is 500 (Five Hundred) units for individuals and 5,000 (Five Thousand) units for institutions. Upon partial surrender, the unit-holder will be issued with a new "Confirmation of Unit Allocation" representing the balance of his / her / its unit holding.
- VII. All payments/receipts in connection with or arising out of transactions in the Units shall be in Bangladeshi Taka.
- VIII. The redemption shall be made on first come first serve basis. If the redemption request on a particular day exceeds 1% of the outstanding unit, the Asset Manager may differ, if required, the redemption request over 1% for a maximum period of 7 (seven) working days. The Asset Manager shall proceed to sell adequate assets and / or arrange loan as it deems fit to pay the surrender money within the stipulated time in the best interest of the unit-holders.

3.10 Winding up Policy

3.10.1 Procedure of Winding Up

- I. If the total number of outstanding units held by the unit holders after surrender at any point of time falls below 25% of the actual units issued, the Fund will be subject to wound up.
- II. The Fund may be wound up on the happening of any event, which, in the opinion of the Trustee with approval from the Commission, requires the Scheme to be wound up.
- III. The Scheme may also be wound up if the Commission so directs in the interest of the unit holders.
- IV. Where a Scheme is to be wound up in pursuance to the above, the Trustee and the Asset Management Company shall give simultaneously separate notice of the circumstances leading to the winding up of the Scheme to the Commission. If the winding up is permitted by the Commission, the Trustee and Asset Management Company shall publish the notice of winding up in two national daily newspapers including a Bangla newspaper having circulation all over Bangladesh.

3.10.2 Manner of Winding Up

- I. The Trustee shall call a meeting within 30 days from the notice date of the unit holders of the Scheme to consider and pass necessary resolutions by three-fourth majority of the unit holders present and voting at the meeting for authorizing the trustee to take steps for winding up of the Scheme. Voting rights shall be the same as clause 7.4.1 of the prospectus. If it fails to have three-fourth majority mandate, the Commission shall have the power to supersede the mandate, if situation demands such.

- II. The Trustee shall dispose of the assets of the Scheme of the Fund in the best interest of the unit holders provided that the proceeds of sale made in pursuance of the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, shall in the first instance be utilized towards discharge of such liabilities as are properly due under the Scheme and after making appropriate provision for meeting the expenses connected with such winding up, the balance shall be paid to the unit holders in proportion to their respective interest in the assets of the Scheme as on the date when the decision for winding up was taken.
- III. Within 30 (thirty) days from the completion of the winding up, the Trustee shall forward to the Commission and the unit holders a report on the winding up containing particulars, such as circumstances leading to the winding up, the steps taken for disposal of assets of the Scheme before winding up, expenses of the Fund for winding up, net assets available for distribution to the unit holders and a certificate from the auditors of the Scheme of the Fund.

3.10.3 Effect of Winding Up

On and from the date of the notice of the winding up of the Fund, the Trustee or the Asset Management Company, as the case may be, shall –

- i. Cease to carry on any business activities of the open-end fund;
- ii. Cease to create and cancel units of the open-end fund;
- iii. Cease to issue and redeem units of the open-end fund.

3.11 Dividend Policy

- i. The accounting year of the Fund shall be July 01 to June 30 or as determined by the Commission.
- ii. The Fund shall distribute minimum 50% (fifty percent), or as may be determined by the বিধিমালা from time to time, of the annual net profit of the Fund as dividend at the end of each accounting year after making provision for bad and doubtful investments.
- iii. The Fund may create a dividend equalization reserve by suitable appropriation from the income of the Scheme to ensure consistency in dividend disbursement for each year.
- iv. Before declaration of dividend, the Asset Management Company shall make a provision in consultation with the Auditor if market value of investments goes below the acquisition cost and the method of calculation of this provision will be incorporated in the notes of accounts.
- v. Surpluses arising simply from the valuation of investments shall not be available for dividend.
- vi. The Asset Management Company will dispatch the Dividend warrants, at the expense of the Fund, within 45 days from the declaration of such dividend and submit a statement within next 7 (seven) days to the Commission, Trustee and the Custodian.
- vii. Before registration for transfer of ownership, a transferee shall not possess the right to any dividend declared.
- viii. There will be a Cumulative Investment Plan (CIP) scheme in this Unit Fund. Under this scheme, a unit holder instead of receiving dividend may reinvest such dividend income accrued for purchasing Unit at a rate determined by IDLC Asset Management Ltd. The unit holders may change their dividend preference in future as per their need.

CHAPTER 4: INVESTMENT MANAGEMENT PROCESS

IDLC AML aims to generate return for investors through long term capital appreciation by investing predominantly in growth assets. In order to fulfill the investment objective, the asset manager would adjust the portfolio on a continuous basis by identifying the allowable investment opportunities and risks through rigorous economic, market, sector and scrip level analysis.

4.1 Asset Allocation:

As the objective of the Fund is to generate long term capital gain, IDLC AML will allocate the major portion of the fund in growth assets which are defined as the assets that have higher growth prospects and are expected to generate capital gains through price appreciation. The asset manager may invest a part of the fund in income generating fund depending on market situation to keep the portfolio diversified and minimize the downside risk.

Growth assets: The assets that are expected to generate capital gains through price appreciation. Given the thin bond market of Bangladesh, the growth assets will be comprised of equity predominantly.

Income generating assets: The assets that generate income on regular basis e.g. fixed deposits, debt instruments and high dividend yielding stocks.

The asset allocation of the portfolio of IDLC Growth Fund will be as follows:

Type of Instruments	Normal Allocation (% of Net Assets)	Normal Deviation
Growth Assets	80.0%	±20.0%
Income Generating Assets	20.0%	±20.0%

In response to changing economic and industry dynamics IDLC AML may adjust the asset allocation of the portfolio in order to achieve greater risk adjusted return within the limitations set by the regulatory authority. Asset allocation may also vary within the band of 20.0% depending on short term tactics to exploit available return opportunities within the investment restrictions for mutual funds.

4.2 Type of Assets:

Following is a summary of different types of assets available in Bangladesh for investment:

- i. **Equity:** A stock or any other security representing an ownership interest is called equity. Equity investments available in Bangladesh are as follows:
 - **Listed Equities:** Listed equities are those companies whose shares that are traded on stock exchanges. Listed equities are more liquid in nature.
 - **Pre-IPOs:** Mutual Funds can make investment in Pre-IPO companies which are approved by BSEC. The purpose of such investment is to capture the capital gain potential of a company which has enormous growth opportunity ahead.
 - **IPOs:** Mutual funds also has been allotted a fixed quota of 10% to invest in IPOs.
- ii. **Fixed Income Securities:** A security that provides a return in the form of fixed periodic payments and eventual return of principal at maturity. Fixed Income Securities in Bangladesh are as follows:
 - **Term Deposits:** Investment can be made in the form of term deposits in Banks and NBFIs.
 - **Corporate Bonds:** The bond market of Bangladesh is very thin. Currently, there are only two listed corporate bonds in Bangladesh; Subordinate 25% Convertible Bonds of BRAC Bank and IBBL Mudaraba Perpetual Bond. Besides, privately issued corporate bonds can be accessed by the fund under institutional arrangement.
 - **Government Securities:** Government securities includes Treasury Bills and Treasury Bonds. There are number of treasury bills available in Bangladesh for different maturities ranging from 14 days to 364 days. Treasury bonds are also available for different maturities e.g. 2 years, 5 years, 10 years, 15 years and 20 years. Government securities are risk free in nature as it is backed by government.

- **Commercial Papers:** Reputed organizations often issue commercial paper at discounts for a stated time period generally less than a year which are then redeemed at face value at maturity.

4.3 Asset Selection Process:

IDLC Growth Fund is positioned to capture risk taking appetite of the investors by investing in assets with long-term growth prospects. The scheme allows the asset manager to capture the long term growth potential of assets and reap the benefit in the form of capital gains. Investment selection process would be driven by IDLC AML's **investment philosophy**, with each alternative passing intense scrutiny considering all identifiable internal and external factors affecting the return potential.

- **Investment Philosophy:** IDLC AML strongly believes that good corporate governance and adequate management capacity are the preconditions for any good investment. This is the investment philosophy that IDLC AML would adhere to before making any kind of investment decision.

IDLC AML will follow their internal investment philosophy while analyzing different asset classes for identifying investment opportunities.

Corporate governance is defined as-

The system of rules, practices and processes by which a company is directed and controlled. It instills policies and rules for maintaining the cohesiveness of an organization. Good corporate governance ensures transparency, accountability and compliance within the organization.

Capacity of management refers to-

The ability of management to run a business successfully. IDLC AML believes that the management of the company should have the required strategic and technical abilities to help the company achieve its goals.

- **Equity Investment Analysis:** While selecting an equity for investment a thorough analysis will be conducted including the economic factors, industry specific factors, and business specific factors. The analysis can be a 'top-down' approach which will start from addressing the current economic conditions, identifying the industries with future growth potential and finally selecting the appropriate company within the industry for investment based on company specific factors. The alternative approach can be 'bottom-up' which will start identifying a specific company with positive business specific attributes and then looking for favorable industry specific and economic factors for further investment decision support. Thorough analysis of the company fundamentals helps identify long-term investment prospect. On the other hand, according to the risk-return profile of growth fund, technical analysis can be a critical investment style for seizing short-term profit opportunity driven by market trend. IDLC AML will nurture the following investment selection process for equities:

A. Fundamental Analysis:

Economic Analysis- Economic indicators like GDP growth, per capita income, per capita consumption etc. helps to understand the dynamics of an economy and growth potential of businesses.

Industry Analysis- Industry analysis helps to understand the market share of companies, the degree of concentration and competition within the industry and growth prospects of the industry.

Company Analysis- Business dynamics like product demand, revenue growth, margins, net profits, dividends, debt burden, asset quality, corporate governance, management capacity etc. All these factors will be considered for a detailed analysis of a company.

Accumulating all the information and using subjective judgment based on own knowledge, analysts will forecast future earnings of a company.

Finally the most suitable valuation method will be used to find out the intrinsic value of a company which will ultimately indicate the return potential from that investment within a specified time period.

As the investment objective of IDLC Growth Fund is to offer return through capital appreciation, investment in Pre-IPO companies is very much aligned with the objective. IDLC Growth Fund will consider investing in Pre-IPO companies with a solid business model depicting an appealing growth story in future.

Investing in Pre-IPOs also comes with some risk factors in terms of discovering the appropriate value and liquidity at the time of sale. However, such companies offer easier access to management and greater availability of detailed financial information compared to the listed companies. Equipped with an efficient research team and prudent investment committee, IDLCAML believes to rightly identify a potential business model and well balance the return and risk of the Funds' portfolio through such investment.

B. Technical Analysis:

Apart from fundamental analysis IDLC AML will also rely on technical analysis to take the benefit of market momentum. Technical analysis assumes that the price of a stock is already adjusted for all the publicly available information and focuses on the analysis of supply and demand condition in the market. It involves analyzing the historical price and volume of the stock and identifying the trend of the market.

- **Fixed Income Securities Investment Analysis:** While selecting from fixed income securities, IDLC AML will consider the following factors:
 - i. **Interest rate outlook:** Fixed income securities are mostly vulnerable to changes in interest rates. Prices of bonds are inversely related to the interest rates i.e. price of bonds falls when interest rate increases, while the reverse happens when interest rate falls. Therefore, interest rate scenario of the country will be monitored on continuous basis.
 - ii. **Credit Rating:** Credit rating indicates the ability of an organization to fulfill its financial commitments. Credit rating agencies assign ratings to companies and financial instruments depending on its capacity to meet its debt obligations. IDLC AML would invest in investment grade securities which refer to high credit rating.
 - iii. **Liquidity:** Fixed income securities are available with different tenors. The longer is the maturity term, the lower is the liquidity. When investing in such securities liquidity is an important factor to consider.

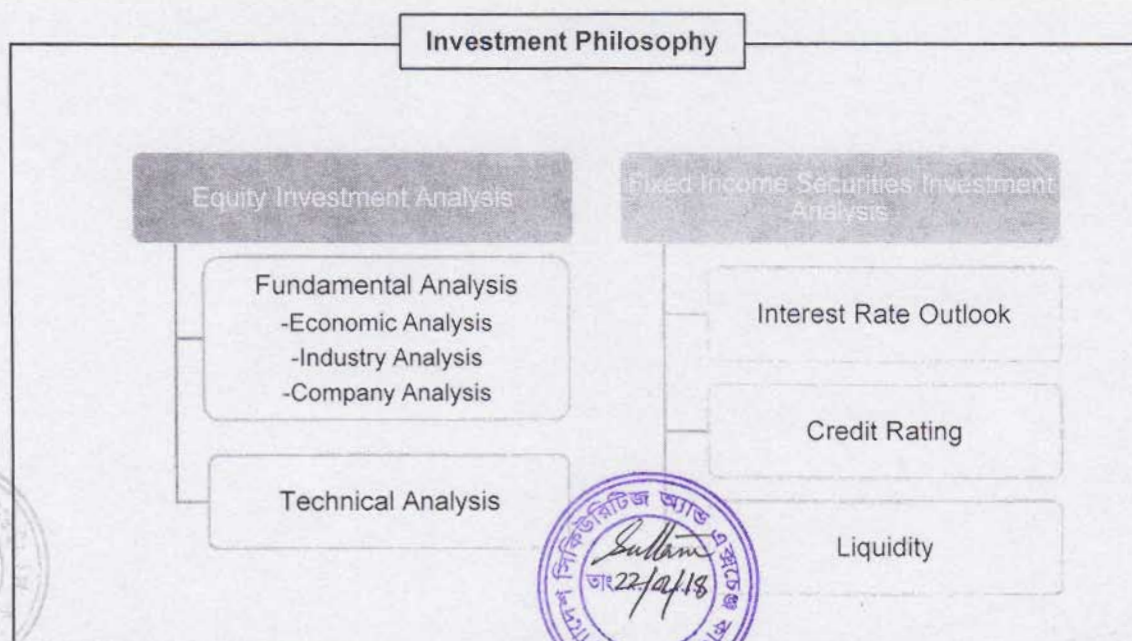

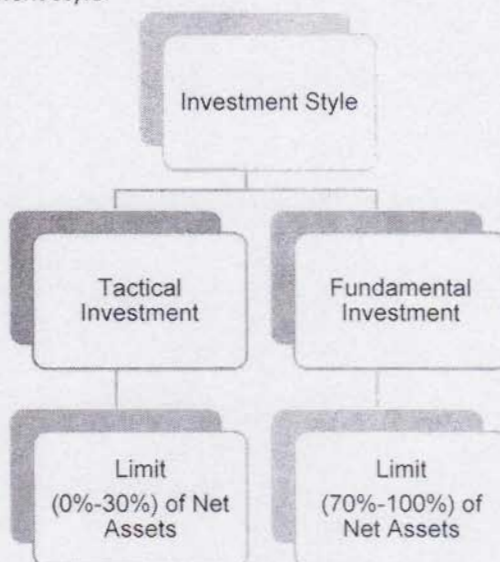

Figure 1: Asset Selection Process

4.4 Investment Style:

IDLC AML will follow a combination of both fundamental and tactical investment style when managing the asset of IDLC Growth Fund. It believes that a balanced combination of these two styles will enable to meet the investment objective of the Fund by maximizing risk-adjusted return from both long-term investment strategies and short-term investment tactics. However, the Fund Manager also acknowledges the necessity of a well-defined investment style for a more disciplined investment behavior. Accordingly, IDLC AML has fixed a band for each investment style:

While Fundamental investment will be the core investment style, IDLC AML will look for tactical investment opportunities on continuous basis. However, considering the risk and return potential associated with tactical investment, IDLC AML has decided to keep it limited within a band of 0%-30% of the Net Assets of the Fund.

4.5 Investment Scenario Analysis:

By nature the Growth Fund will invest in growth assets predominantly. However, as the debt market of Bangladesh is still very thin, the Fund has to look for growth opportunities mostly in equities and equity related instruments. Nonetheless, continuous monitoring of asset allocation is necessary as the Fund will take position in income generating assets, whenever necessary, to maintain a buffer when the market is in downtrend.

The portfolio of growth assets and income generating assets would be managed as per the changing conditions of market scenario and interest rate. Under normal scenario with stable index and interest rate, the normal allocation between growth assets and income generating assets of IDLC Growth Fund will be 80% and 20% respectively. However, the allocation may vary within $\pm 20\%$ band depending on the changing market and interest rate conditions. Below is a simplified depiction of the changes in portfolio composition for illustration purpose. In reality the changes are much more dynamic and complex.

▪ **Volatile market scenario with stable interest rate:**

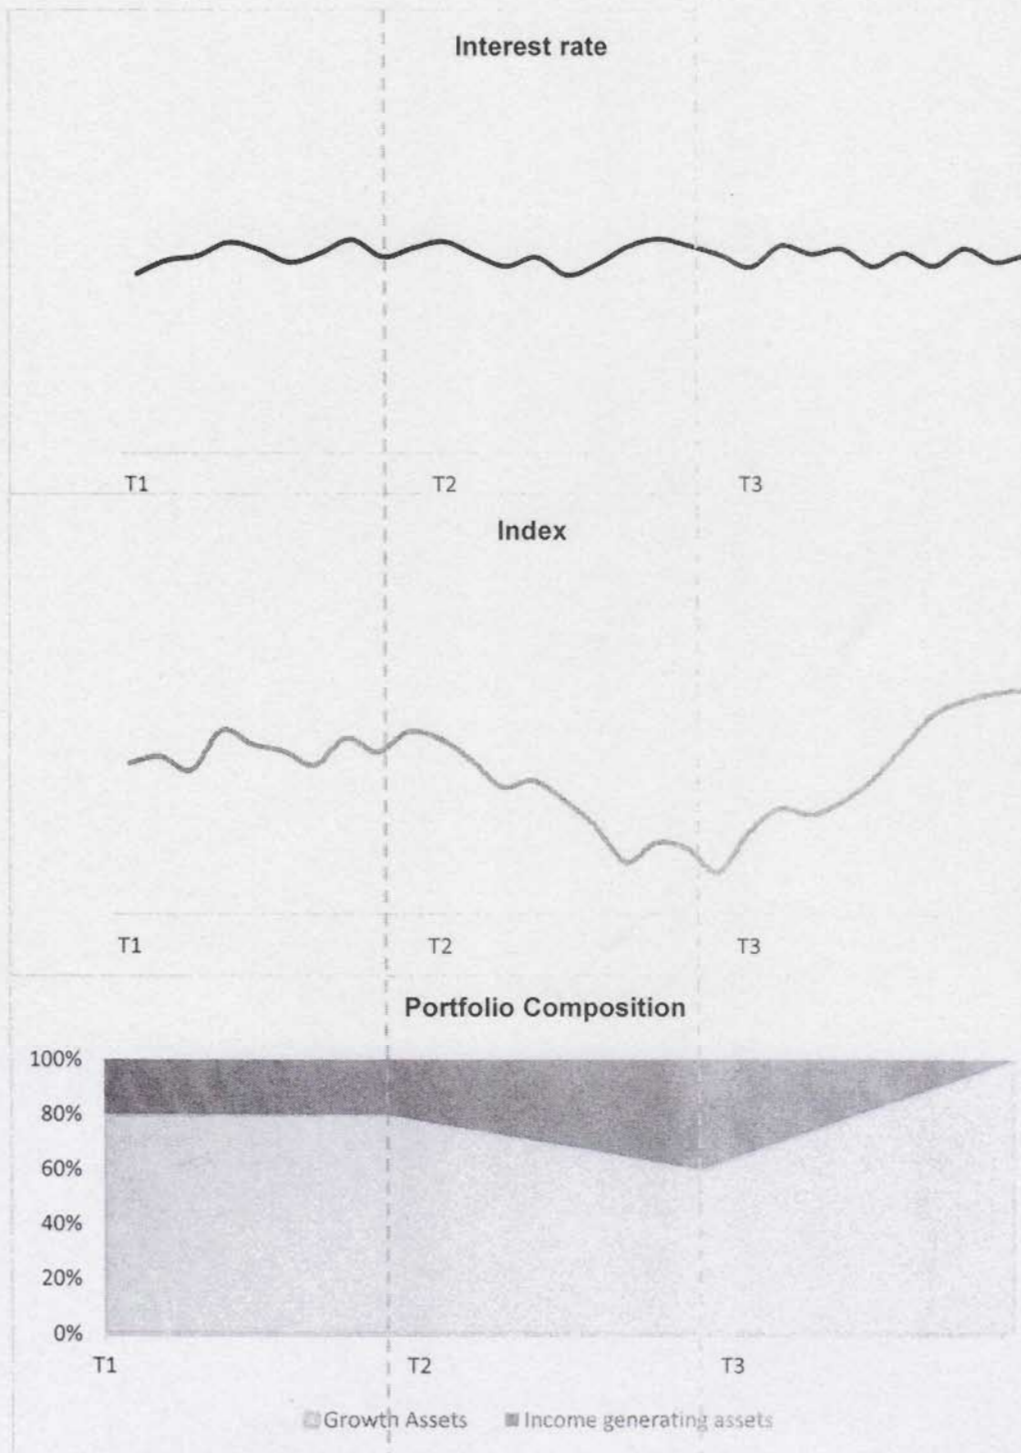

Assuming that interest rate will remain stable, the portfolio composition of the fund will change relative to the changing conditions of the market. The market can be stable or there can be Bull Run or Bear Run in the market.

A bull market is a period of several months or years during which asset prices consistently rise. One common measure is that a bull market exists when at least 80% of all stock prices rise over an extended period. Another measure is that a bull market exists if market indices rise at least 15%.

During Bull Run, prices go up resulting in capital gain. Therefore, IDLC AML would reshuffle the portfolio composition giving greater weight to the assets with capital appreciation potential.

A bear market is a condition in which securities prices fall and widespread pessimism causes the stock market's downward spiral to be self-sustaining. Investors anticipate losses as pessimism and selling increases. Although figures vary, a downturn of 20% or more from a peak in multiple broad market indexes, over a two-month period is considered an entry into a bear market.

During Bear Run, securities face price correction and thus limiting the return opportunities through capital appreciation. In that case fixed income securities would become more attractive investment choice and IDLC AML would reshuffle the portfolio accordingly.

- Stable Interest rate
- Stable Index
- Normal allocation to growth assets 80%~

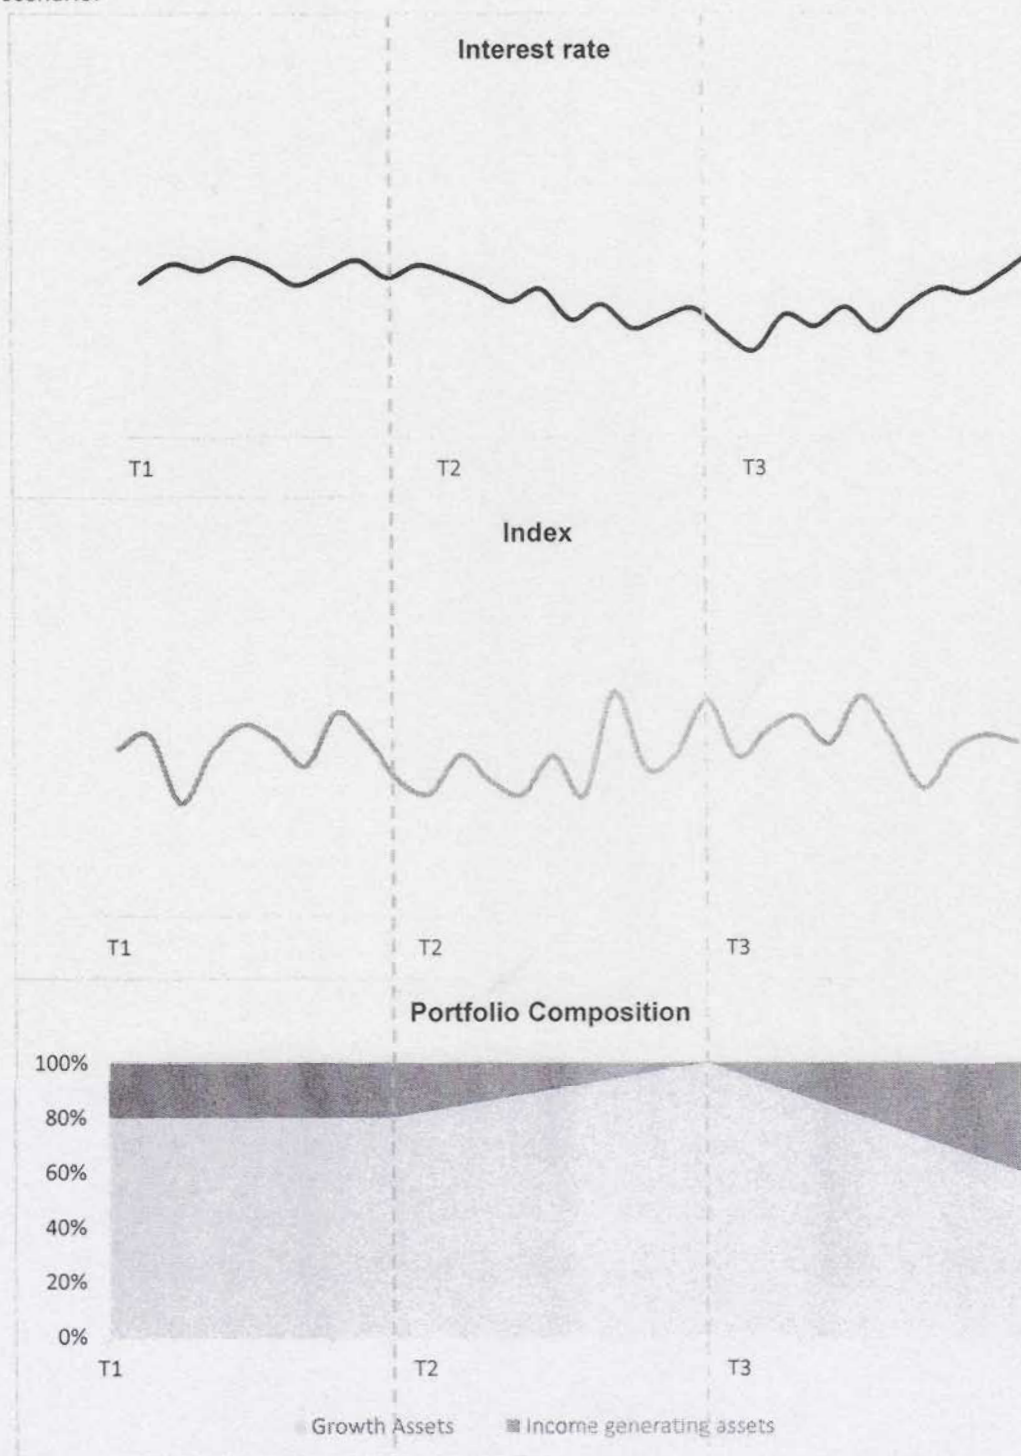

- Stable Interest rate
- Market Bear Run
- Allocation to growth assets comes down to 60%~

- Stable Interest rate
- Market Bull Run
- Allocation to growth assets increases up to 100%~

▪ **Volatile interest rate scenario with stable market:**

Assuming that market index will remain stable, the portfolio composition of the fund will change depending on the interest rate movement. Generally, interest rates move due to couple of reasons including central bank's policies, inflation, demand and supply of money etc. During rising phase of interest rates, the allocation to the income generating assets may rise in the fund by investing in bonds term deposits which promise higher fixed income. On the other hand, the reverse may happen during the declining interest rate scenario.

- Stable Index
- Stable Interest
- Normal allocation to income generating assets 80%~

- Stable Index
- Declining Interest
- Allocation to income generating assets comes down to 0%~

- Stable Index
- Increasing Interest
- Allocation to income generating assets increases up to 40%~

4.6 Investment Execution Strategy:

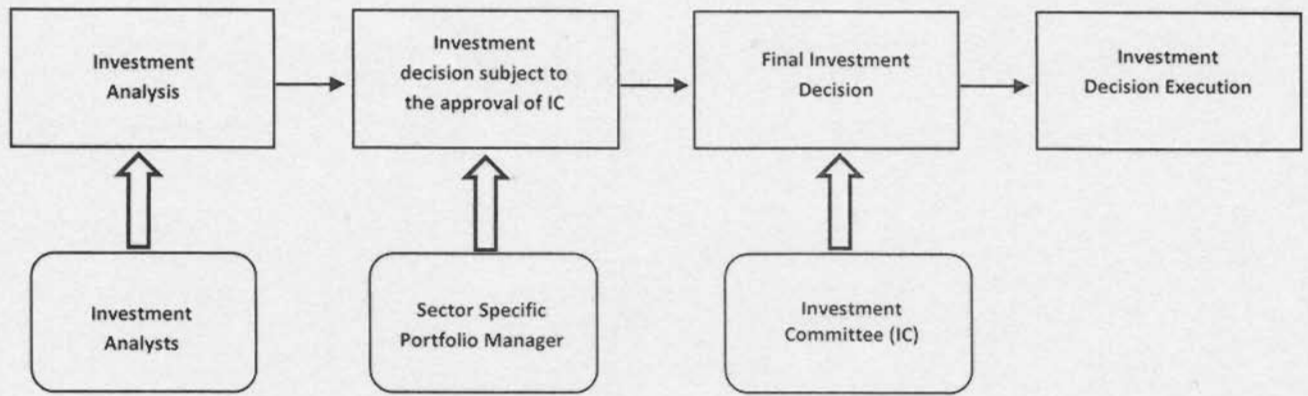

To execute the investment decision at the right time is of utmost importance for achieving the desired return. After thorough investment analysis there are number of factors that IDLC AML would consider for the execution of investment decision.

- **Momentum:** Momentum is the rate of acceleration of price or volumes. While investing in listed security, momentum of that particular security is an important issue to consider for triggering buying and selling act.
- **Market Sensitivity:** Some securities are highly sensitive to the market movement reflecting a higher beta. Such cohesiveness needs to be identified for minimizing risks.
- **Margin of Safety:** Margin of safety is a principle of investing in which a security is purchased when the market price is significantly below its intrinsic value. This difference allows an investment to be made with minimal downside risk. For example, if an investor pays BDT 9.00 for a security that he believes to be worth BDT 10.00 his margin of safety is $[1-(9/10)] = 10.00\%$. The more is the margin of safety, the less is the downside risk.
- **Liquidity:** When investing in a comparatively illiquid security, proper caution will be taken so that price of the security does not move abruptly to evaporate the return potential. For example, if the average volume of a security traded is 1,000 shares per day and the fund aims to buy or sell around 100,000 shares of that security it would be very difficult as price of that security will move sharply hampering the targeted return from that investment.
- **Change in Fundamentals:** Once the fund invested in a particular security, that security will be continuously monitored looking for change in the fundamentals on which the investment decision was made at the first instance and act accordingly.
- **Portfolio Rebalancing:** IDLC AML will be flexible and vigilant enough to look for other investment alternatives with higher return potential and reshuffling the portfolio accordingly, by selling existing assets and buying new assets within the capacity allowed by BSEC.

4.7 Procedure followed for Investment Decision:

- IDLC AML has engaged sector specific fund managers who will evaluate and recommend investment opportunities in each sector.
- The investment decisions recommended by fund managers will subject to the final approval of Investment Committee (IC).
- IDLC AML has an Internal Investment Committee comprising of the Managing Director, Portfolio Managers and the Investment Analyst who meet at periodic intervals. The Investment Committee, at its meetings, reviews the performance of the schemes and general market outlook and formulates broad investment strategy.
- The Managing Director who chairs the Investment Committee Meetings guides the deliberations at Investment Committee. He/She, on an ongoing basis, reviews the portfolios of the schemes and gives directions to the Portfolio Manager, where considered necessary. It is the ultimate responsibility of the Portfolio Manager to ensure that the investments are made as per the Regulatory/internal guidelines, Scheme investment objectives and in the best interest of the unit holders of the respective schemes.
- The Managing Director makes a presentation to the Board of AMC at each of its meetings indicating the performance of the schemes. The performance of the schemes is reviewed by the Board with reference to the appropriate benchmarks and also the performance of the schemes of the competitors.
- The Managing Director brings to the notice of the Board specific factors, if any, which are impacting the performance of any individual scheme. The Board on consideration of all relevant factors may, if necessary, give directions to AMC.
- Similarly, the performance of the schemes is submitted to the Board of the Trustee. The Managing Director explains the details on Schemes' performance to the Board of the Trustee.

CHAPTER 5: RISK FACTORS

5.1 Risk of Investment:

Investors should know that IDLC Growth Fund is not a guaranteed or assured return scheme and the past performance of the Sponsors and their affiliates/ AMC does not guarantee future performance of the Scheme. The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. Investing in the IDLC Growth Fund involves some general risks and some scheme specific risks that investors should carefully consider before investing in the Fund.

General Risk Factors:

- I. Due to the fluctuation of the price / value / interest rates of the securities in which the Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.
- II. Government policy and tax laws may change, affecting the return on investments of the fund, which may eventually affect the NAV and return of the Units.
- III. Large number of redemption requests, may lead to an asset-liability mismatch and therefore may require the investment manager to make a quick sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- IV. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme remain idle and no return is earned thereon. The inability of the Scheme to make intended securities purchases and sales, due to settlement problems, could cause the Scheme to miss certain investment opportunities.

Scheme Specific Risk Factors:

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

Risk factors associated with investing in equities and equity related instruments:

- I. As the major portion of the fund will be allotted to growth assets, the risk is also high in this case. Generally, the future growth prospect of a company depends on multiple factors, some of which are beyond the level of management capacity. So, if one or some of these factors go unfavorable, it is possible that the company may not be able to deliver the expected growth.
- II. Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis.
- III. Securities, which are not listed on the stock exchanges, are illiquid in nature and entails higher liquidity risk, in comparison to securities that are listed on the exchanges.
- IV. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges.
- V. *Despite careful selection of companies for investment in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.*

Risk factors associated with investing in Fixed Income Securities:

- I. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates.
- II. Money market instruments lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- III. Investment in debt instruments are subject to credit risk i.e. the risk of an issuer's inability to meet interest or principal payments on its obligations, which may have their credit ratings downgraded. Changes in financial conditions of an issuer or changes in economic and political conditions specific to the issuer are factors that may affect an issuer's credit quality and security values.
- IV. Government securities have price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, Government Securities are unique in the sense that their credit risk generally

remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

- V. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to default risk of the issuer. Therefore, the interest rate risk of zero coupon securities is higher.
- VI. Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

5.2 Risk Scale:

IDLC AML introduces "Risk Scale" which is a graphical representation of the riskiness of the scheme. "Risk Scale" will indicate how much risk an investor needs to assume when investing in the product. There are five scales of risk on "Risk Scale", ranging from low to high. IDLC AML has categorized "IDLC Growth Fund" as **high** on the "Risk Scale" primarily due to:

- The Fund will invest 80% of the Net Assets within $\pm 20\%$ band in growth assets which will be equities predominantly with higher growth prospect in future. In cases, 100% of the Net Assets can be invested in growth assets depending on the market situation. As a result, the fund will inherit the high risk attribute of growth assets.
- The Fund will also invest based on technical analysis within a specified band as a part of short-term profit making tactic.

Risk Levels	Interpretation
Low	Principal at low risk
Moderately Low	Principal at moderately low risk
Moderate	Principal at moderate risk
Moderately High	Principal at moderately high risk
High	Principal at high risk

5.3 Risk Control Mechanism

As the objective of IDLC Growth Fund is to generate greater risk adjusted return through capital appreciation of growth assets, it also has to assume relatively higher risk associated with growth assets. To understand all those risks requires a great deal of analysis. Apart from that, different investment securities like equity, debt securities or money market securities have their own risks as described in Risk of Investment section. So, it is very important for the fund manager to understand all the associated risks with the investment securities and establish proper control mechanism to minimize those risks. IDLC AML has engaged qualified investment professionals who have thorough knowledge about the downside risks of investment securities and would analyze all the publicly available data to discover the actual risk adjusted return of the securities. Apart from a well-qualified fund management team, there will be policies to check the credit risk, interest risk and liquidity risk.

- IDLC AML's internal investment philosophy, which prioritizes good governance and adequate management capacity in case of investment decision, will immune the fund from investments in poorly governed investment securities.
- To minimize the downside risk of an investment IDLC AML would maintain proper margin of safety during investment.
- To mitigate the default risk of securities IDLC AML would evaluate the credit fundamentals of each investment opportunity. The AMC utilizes ratings of recognized rating agencies as an input in the credit evaluation process.
- An interest rate scenario analysis would be performed on an on-going basis based on which the Fund Manager would manage the investments of the Scheme on a dynamic basis to exploit emerging opportunities in the investment universe and manage risks at all points in time.
- Liquidity risk will be addressed by properly assessing the ease of convertibility of the asset into cash.
- To minimize the downside risk from technical trading, IDLC AML will strictly follow the specified band for such investment.

5.4 Who To Invest

- I. Individuals should attain proper knowledge about the functioning of capital markets before applying for the units of the Fund.
- II. Individuals who are looking for long-term capital growth and dividend payment and are comfortable with the risk associated with equity investments should consider investing in the Fund.
- III. An individual may also consider investing in the Fund if s/he can accept variability of returns, have a high tolerance for risk and is planning to invest in the Fund over the long term.
- IV. Considering other factors like the investment opportunities available in the market, return expectation, income level & consumption pattern, one may put only a limited portion of his / her investment portfolio into the Fund.
- V. Individuals are highly recommended to go through the full prospectus to make an informed investment decision.

CHAPTER 6: FORMATION, MANAGEMENT AND ADMINISTRATION

6.1 Sponsor of the Fund

IDLC Finance Limited is the sponsor of IDLC Growth Fund. The company was incorporated under Companies Act 1994 vide Certificate of Incorporation No C-14218/1992 of 1984-1985, dated: 23rd May of 1985. The company was initially established through the collaboration of International Finance Corporation (IFC) of the World Bank, German Investment and Development Company (DEG), Kookmin Bank and Korean Development Leasing Corporation of South Korea, the Aga Khan Fund for Economic Development, the City Bank Limited, IPDC of Bangladesh Limited, and Sadharan Bima Corporation. As the company evolved, initial foreign shareholding of 49% was gradually withdrawn and the last foreign shareholding was bought out by local sponsors in 2009. IDLC Finance Limited was listed in Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE) in 1993 and 1996 respectively.

Although IDLC Finance Limited initially started with Lease Financing as the core product, IDLC has grown to become the largest multi-product Non-Bank Financial Institution of Bangladesh, with almost equal focus in Corporate, Retail and SME sectors. Over the years, it has attained a significant presence in the corporate sector of Bangladesh. IDLC also has strong footprint in the capital market of Bangladesh through its wholly owned subsidiaries: IDLC Securities Limited, IDLC Investments Limited and IDLC Asset Management Limited.

IDLC is highly respected by its clients, peers, employees and regulators for its strong corporate governance, statutory compliance, high ethical standards, a progressive and enabling working environment, and strong commitment to environmental and social development. IDLC continues to play a pioneering role in introducing and popularizing a variety of financial instruments suiting ever-changing requirements of its fast-growing clients.

6.2 Trustee of the Fund

Bangladesh General Insurance Company Limited (BGIC) will act as the Trustee of IDLC Growth Fund. BGIC is the first private sector general insurance company in Bangladesh established on 29th July, 1985. The company runs the business operation under the supervision of board of Director and legal frame work of the Insurance Act, 1938 and the Insurance Rules, 1958 as amended from time to time. The company was established with the objectives of making affordable insurance accessible to all. BGIC is listed with both Dhaka and Chittagong stock exchanges.

6.3 Custodian of the Fund

BRAC Bank Limited will act as the custodian of IDLC Growth Fund. BRAC Bank Limited started its journey in 2001 with an increased focus on the Small and Medium Enterprises (SME) financing. Over the years, the bank has turned into the market leader in SME business in the country. It is a member of Global Alliance for Banking Values (GABV). BRAC Bank is now one of the leading banks in Bangladesh with 185 branches, 469 ATMs, 85 CDMs and 448 SME unit offices. The bank is listed with both Dhaka and Chittagong Stock Exchanges.

6.4 Asset Manager of the Fund
